Re: Enrollment Projections Report

Dear Mr. Helms:

I am pleased to advise you that the latest Montgomery County Public Schools' Enrollment Projections Report prepared by DeJong-Healy is now available on our web page at http://www.mcps.org/facilities/index.htm. The report will assist MCPS in projecting future decline or growth along with assessing the impact on the school facilities and student population. The report looks ahead ten years and estimates the enrollment in each of our schools. It is a collaborative effort that your planning staff supported. We truly appreciate everyone's assistance in getting the necessary information to DeJong-Healy in order to ensure that our enrollment projections report is an accurate and comprehensive planning tool.

Please let me know if you have any questions.

Sincerely yours,

Brenda Blackburn
