(Code 1972, § 30-2; Code 1992, § 30-2; Ord. No. 2004-4, 9-7-2004)

Sec. 42-3. Interpretation of boundaries.

Unless district boundary lines are fixed by dimensions or otherwise clearly shown or described and where uncertainty exists with respect to the boundaries of any of the districts, as shown on the zoning map, the following rules shall apply:

- (1) Where district boundaries are indicated as approximately following or being at right angles to the centerlines of streets, highways, alleys or railroad main tracks, such centerlines, or lines at right angles to such centerline, shall be construed to be such boundaries, as the case may be.
- (2) Where a district boundary is indicated to follow a river, creek, branch or other body of water such boundary shall be construed to follow the centerline at low water or at the limit of the jurisdiction, and in the event of change in the centerline, such boundary shall be construed as moving with the actual centerline.
- (3) If no distance, angle, curvature description or other means is given to determine a boundary line accurately and the foregoing provisions do not apply, the same shall be determined by the use of the scale shown on such zoning map. In case of subsequent dispute, the matter shall be referred to the board of zoning appeals which shall determine the boundary.

The zoning administrator is authorized to waive any of the requirements of this chapter in the event of an emergency or natural disaster.

(Code 1972, § 30-5; Code 1992, § 30-5; Ord. No. 2007-1, 4-3-2007)

Subpart B - LAND DEVELOPMENT REGULATIONS

Chapter 42 ZONING

Sec. 42-6. Zoning permits.

- (a) Buildings or structures shall be started, reconstructed, enlarged or altered only after a zoning permit has been obtained from the administrator, and shall be void after a period of 180 days from the date of approval, if not utilized during the 180-day period.
- (b) Each application for a zoning permit may be required to be accompanied by at least one copy of a scale drawing. The drawing shall show the size and shape of the parcel of land on which the proposed building is to be constructed, the nature of the proposed use of the building or land, the location of such building or use with respect to the property lines of such parcel of land and to the right-of-way of any street or highway adjoining such parcel of land and any other information which the administrator may deem necessary for consideration of the application. If the proposed building or use is in conformity with the provisions of this chapter, a permit shall be issued to the applicant by the administrator.

(Code 1972, § 30-6; Code 1992, § 30-6)

Sec. 42-7. Certificates of occupancy.

Such a permit shall state that the building, the proposed use or the use of the land complies with the provisions of this chapter. A similar certificate shall be issued for the purpose of maintaining, renewing, changing or extending a nonconforming use. A certificate of occupancy either for the whole or a part of a building shall be applied for simultaneously with the application for a zoning permit. The permit shall be issued within ten days after the erection or structural alteration of such building or part has conformed with the provisions of this chapter. Such certificate must be displayed by commercial establishments.

(Code 1972, § 30-7; Code 1992, § 30-7)

Sec. 42-8. Conditional use permits.

- (a) Where so stated by this chapter, the location of permitted uses shall require, in addition to the zoning permit and certificate of occupancy, a conditional use permit approved by the town council when authorized as herein after provided. A conditional use permit should be approved only if it is permitted as a conditional use in the district regulations and only if it is found that the location is appropriate and not in conflict with the comprehensive plan, that the public health, safety and general welfare will not be adversely affected, that adequate utilities and off-street parking facilities will be provided, and that necessary safeguards will be provided for the protection of surrounding property, persons and neighborhood values, and further provided that the additional standards of this chapter are complied with. In approving a conditional use permit the town council may impose such reasonable conditions as it believes necessary to accomplish the intent of this chapter. Unless otherwise specified in this chapter or specified as a condition of approval, the height limits, yard spaces, lot area and sign requirements shall be the same as for other uses in the district in which the proposed conditional use is located.
- (b) In determining the conditions to be imposed, the town council shall take into consideration the intent of this chapter and may impose reasonable conditions that: abate or restrict noise, smoke, dust or other elements that may affect surrounding property; establish setback requirements necessary for orderly expansion; prevent or alleviate traffic congestion; provide for adequate parking and ingress and egress to public streets or roads; provide adjoining property with a buffer or shield from view of

the proposed use, if such use is considered to be detrimental to adjoining property; tend to prevent such use from changing the character and established pattern of development of the community.

- (c) Any use listed as requiring approval of a conditional use permit and which use legally exists at the effective date of the regulations of this chapter shall be considered a nonconforming use, unless it has been approved as a conditional use by the town council. Conditional use permits may be revoked by the town council, town manager or zoning administrator, if the conditions of such permit are not fulfilled. Nothing contained in this chapter shall be construed to compel the town council to issue a conditional use permit. Conditional use permits approved shall be subject to administrative review on an annual basis and to the following time limitations:
 - (1) Any conditional use permit granted shall be null and void 24 months after approval by the town council if the use or development authorized by the permit is not commenced to a degree that, in the opinion of the zoning administrator, clearly establishes the intent to utilize the granted conditional use permit in a time period deemed reasonable for the type and scope of improvements involved. The property owner, or applicant, may request that town council allow a 12-month extension beyond the 24 month period for an approved conditional use permit provided that the request is received, in writing, within at least 23 months of the conditional use permit approval.
 - (2) Activities or uses approved by a conditional use permit which are discontinued for a period of more than 24 consecutive months shall not be reestablished on the same property unless a new conditional use permit is issued in accord with this chapter.
- (d) The town council, town manager and zoning administrator are authorized to require supplemental conditional use permits if questions of compliance should arise regarding any provision of this chapter.
- (e) Conditional use permit application submissions shall include a traffic impact statement whenever a proposed conditional use permit substantially affects transportation on town streets through traffic generation of either:
 - (1) 100 vehicles trips per peak hour by residential development;
 - (2) 250 vehicles trips per peak hour by non-residential development; or
 - (3) 2,500 vehicle trips per day by non-residential development.
- (f) The data and analysis contained in the traffic impact statement shall comply with Virginia Department of Transportation Traffic Impact Analysis Regulations 24 VAC 30-155-60 and all applicable town ordinances.

approved barriers shall be provided along lot boundaries to control entrance and exit of vehicles or pedestrians.

- (3) *Drainage and maintenance.* Off-street parking facilities shall be drained to eliminate standing water and prevent damage to abutting property and/or public streets and alleys and shall be paved in accordance with an approved plan or in accordance with applicable town specifications. Off-street parking areas shall be maintained in a clean, orderly and dust-free condition, at the expense of the owner or lessee.
- (4) *Lighting.* Lighting shall be provided if off-street parking spaces are to be used at night in conjunction with a business or activity on the premises. Lighting facilities shall be arranged and installed, and the light source shielded, to minimize glare on adjacent property or streets and no lighting fixture shall exceed a height of 15 feet in a residential district or 30 feet in a business district. For mixed use districts, lighting fixtures shall not exceed 15 feet for a residential use or 30 feet for a business use or mixed use. Lighting fixtures shall be allowed to exceed specified maximum heights with conditional use permit approval. Property owned or controlled by the town shall be exempt from these lighting requirements.
- (5) *Design in general.* All parking lots shall be arranged for functional efficiency and convenience and in general shall be designed to present a pleasing appearance so as to reduce adverse impact on surrounding public or private property.
- (6) *Parking lot aisles.* Aisle widths shall be based upon the following:

90 degree parking	24-foot aisle minimum, if parking on both sides
60 degree parking	20-foot aisle minimum, if parking on both sides
45 degree parking	18-foot aisle minimum, if parking on both sides
Two-way traffic	18-foot aisle minimum, if parking on one side
One-way traffic	14-foot aisle minimum

- (7) *Greenspace and landscaping.* Forty square feet of greenspace per one parking space provided shall be required within parking areas with 20 or greater parking spaces. One tree of a minimum height of six-feet tall shall be required per ten parking spaces interior to the parking perimeters for all parking areas with 20 or greater parking spaces. The greenspace and landscaping required shall be uniformly distributed in islands and bump-outs interior to the parking area to the satisfaction of the zoning administrator. Islands and bump-outs shall be of sufficient size to accommodate landscaping growth to maturity. The greenspace and landscaping requirements of this section shall be deemed to count toward the greenspace and landscaping requirements of

Subpart B - LAND DEVELOPMENT REGULATIONS

Chapter 42 ZONING

the zoning district, provided the parking is provided on-site. Parking garages shall be exempted from the parking greenspace and landscaping requirement.

- (8) *Storage lots.* Storage lots for contractor equipment, tractor trailers, buses and similar large vehicles may be gravel, provided the storage area is fully enclosed by a minimum six-foot-tall gated fence.
- (9) *Americans with Disabilities Act.* Parking areas shall comply with the Americans with Disabilities Act and Code of Virginia in regards to spaces reserved for the use of persons with disabilities.
- (e) *Grandfathered status in the B-2 Central Business District .* Sites in the B-2 Central Business District having existing structures, which are adequate for commercial, professional, or residential uses as provided in the B-2 Central Business District at the time of enactment of this amendment, shall be considered as grandfathered in regards to off-street parking requirements. For enlargements or significant structural alterations of existing structures, the required parking shall equal the number of spaces required by this section for the new use area, unless a conditional use permit is granted by town council for an exception.
- (f) *Parking credit for availability of mass transit.*
 - (1) Properties which have mass transit available shall be eligible for a ten percent credit toward reduction in the amount of required off-street parking (rounded downward to the nearest whole space). Mass transit shall be deemed as available by the presence of a bus stop of a town-sponsored bus service on-site or along the street frontage immediately adjoining the property under consideration or by the presence of a bus stop of a town-sponsored bus service within 600 feet of the property under consideration.
 - (2) The development under consideration shall reserve area for the placement of the credited off-street parking spaces on-site and show these credited spaces on the proposed site plan. Should town-sponsored mass transit no longer become available, the development shall provide the credited off-street parking within six months of the cessation of service.
- (g) *Parking credit for motorcycle spaces.* At the option of the property owner, parking credit may be given in the amount of one parking space credit for each two designated motorcycle parking spaces provided at a maximum rate of one parking space credit per 50 provided parking spaces. Motorcycle parking spaces shall be a minimum of 4½ feet in width by eight feet in length.
- (h) *Compact parking spaces.* At the option of the property owner, development with 100 or more provided parking spaces may provide a maximum of ten percent of total provided parking spaces as designated compact parking spaces. Compact parking spaces may be a minimum of eight feet in width by 16 feet in length.
- (i) *Exceptions relating to conditional zoning and/or conditional use permits.* When the size, scope, or intensity of a permitted use is significantly decreased either by voluntary proffers under conditional zoning or by conditions under a conditional use permit, then town council may grant an exception to the minimum off-street parking spaces required and the design standards relating to acceptable paving methods and surfaces. Such exceptions shall run concurrently with the applicable conditional zoning or conditional use permit.

Subpart B - LAND DEVELOPMENT REGULATIONS

Chapter 42 ZONING

Sec. 42-10. Minimum off-street loading requirements.

- (a) *Specific requirements by use.* Except as otherwise provided in this chapter, when any institutional, business or industrial building or structure is hereafter erected, or structurally altered to the extent of increasing the floor area by 25 percent or more, or any building is hereafter converted, for such uses, and when such buildings contain floor area in excess of 2,500 square feet, at least one accessory off-street loading space shall be provided, as required in subsequent sections of this article. The administrator may require additional spaces in an appropriate case in order to avoid congestion in public streets or approved accessways.
- (b) *Interpretation of specific requirements.*
 - (1) The loading space requirements apply to all districts, but do not limit the special requirements which may be imposed in the district regulations.
 - (2) The loading space requirements in this section do not limit special requirements which may be imposed in connection with uses permitted by approval of a conditional use permit or special exception.
- (c) *Mixed uses in one building.* Where a building is used for more than one use or for different uses, and where the floor area used for each use for which loading space is required is below the minimum for required loading spaces but the aggregate floor area used is greater than such minimum, then off-street loading space shall be provided as if the entire building were used for that use in the building for which the spaces are required. In such cases, the administrator may make reasonable requirements for the location of required loading spaces.
- (d) *Design standards.*
 - (1) *Minimum size.* For the purpose of these regulations, the term "loading space" is a space within the main building or on the same lot, providing for the standing, loading or unloading of trucks, having a minimum area of 540 square feet, minimum width of 12 feet, a minimum depth of 35 feet, and a vertical clearance of at least 15 feet.
 - (2) *Loading space for funeral homes.* Loading spaces for a funeral home may be reduced in size to ten by 25 feet and vertical clearance reduced to eight feet.
 - (3) *Entrances and exits.* Location and design of entrances and exits shall be in accord with applicable requirements of the district regulations and traffic regulations and standards. Where the entrance or exit of a building is designed for truck loading and unloading, such entrance or exit shall be designed to provide at least one off-street loading space. Where an off-street loading space is to be approached directly from a major thoroughfare, necessary maneuvering space shall be provided on the lot.

(Code 1972, § 30-9A; Code 1992, § 30-9A)

Sec. 42-11. Amendments to chapter.

- (a) *Initiation of change.*
 - (1) The town council may, from time to time, amend, supplement or change, by ordinance, the boundaries of the districts or the regulations herein established. Any such amendment may be initiated by resolution of the town council, or by motion of the planning commission, or by petition of the owner, contract purchaser, with the owner's written consent, or the owner's agent therefor, of the property which is the subject of the proposed zoning map amendment addressed to the town council. Petitions for change or amendment shall be on forms and filed in a manner prescribed by the planning commission. Petitions by private property owners shall be for

Subpart B - LAND DEVELOPMENT REGULATIONS

Chapter 42 ZONING

contiguous properties only; separate application shall be made by private property owners for non-contiguous properties.

- (2) Rezoning application submissions shall include a traffic impact statement whenever a proposed zoning map amendment substantially affects transportation on town streets through traffic generation of either:
 - a. 100 vehicles trips per peak hour by residential development;
 - b. 250 vehicles trips per peak hour by non-residential development; or
 - c. 2,500 vehicle trips per day by non-residential development.
 - (3) The data and analysis contained in the traffic impact statement shall comply with Virginia Department of Transportation Traffic Impact Analysis Regulations 24 VAC 30-155-60 and all applicable town ordinances.
- (b) *Report from planning commission.* Before taking any action on any proposed amendment, supplement or change, the town council shall submit the same to the planning commission for its recommendations and report. Failure of the commission to report 90 days after the first meeting of the planning commission after the proposal has been referred to the planning commission shall be deemed approval.
- (c) *Notice and hearing.*
- (1) The planning commission shall hold a public hearing thereon, before submitting its report to the town council. Notice of public hearings before the commission shall be given by publishing the time, place and nature of the hearing once a week for two successive weeks in a newspaper published or having general circulation in the town, provided that such notice for both the planning commission and the town council may be published concurrently. The public hearing shall be held not less than six, nor more than 21, days after final publication. In addition, the commission shall cause the date, time, place and nature of the hearing to be posted conspicuously on the property in accordance with the rules of the commission and a certificate of posting shall become a part of the record of the hearing. The published and posted notices shall contain reference to the place, or places, within the town where the plans, ordinances or amendments may be examined.
 - (2) Before approving any proposed change or amendment, the town council shall hold a public hearing thereon, notice of said hearing to be accomplished by publication in a newspaper as prescribed in subsection (c)(1) of this section. The planning commission and the town council may hold a joint public hearing after public notice, as set forth herein above. If such joint hearing is held, then public notice as set forth above, need be given only by the town council. If an advertised hearing is continued or deferred, notice shall be repeated for the new hearing.
 - (3) When a proposed amendment involves a change in the zoning classification of 25 or less parcels of land, then, in addition to the advertising as above required, written notice shall be given at least five days before the hearing to the owner, or owners, their agent or the occupant, of each parcel involved, and to the owners, their agent or the occupant of all abutting property and property immediately across the street or road from the property affected; including those properties which lie in an adjoining jurisdiction. Notice sent by registered or certified mail to the last known address of such owner, as shown on the current real estate tax assessment books, shall be deemed adequate compliance with this requirement. If the hearing is continued, notice shall be remailed. Costs of any notice hereunder shall be charged to the applicant.
 - (4) When a proposed amendment of the zoning ordinance involves a change in the zoning map classification of more than 25, but less than 500, parcels of land, then, in addition to the advertising as above required, written notice shall be given by the planning commission at least five days before the hearing to the owner, owners, or their agent, of each parcel of land involved. One notice sent by first class mail to the last known address of such owner, as shown on the current real estate tax assessment books, shall be deemed adequate compliance with this

Subpart B - LAND DEVELOPMENT REGULATIONS

Chapter 42 ZONING

requirement, provided that a representative of the commission shall make affidavit that such mailings have been made and file such affidavit with the papers in the case. Nothing in this subsection shall be construed as to invalidate any subsequently adopted amendment or ordinance because of the inadvertent failure by the representative of the commission to give written notice to the owner, owners, or their agent, of any parcel involved.

- (5) Whenever the notices required hereby are sent by an agency, department or division of the town such notices may be sent by first class mail; provided, however, a representative of such agency, department or division shall make affidavit that such mailings have been made and file such affidavit with the papers in the case.
- (d) *Withdrawal of application.* Applications for a change in zoning may be withdrawn from consideration before the first notice of a public hearing thereon has been published and fees refunded if no publication cost is incurred. Applications for a change in zoning which are withdrawn after first publication shall be considered as denied for the purpose of the one-year limitation on reconsideration as provided in subsection (e) of this section.
- (e) *Reconsideration, one-year limitation.* Whenever a petition requesting an amendment, supplement or change has been denied by the town council, such petition, for the same change, shall not be reconsidered sooner than one year after the previous denial.
- (f) *Action by the town council.*
 - (1) The town council shall take action on a request for amendment within one year of the date of filing; otherwise the amendment shall be deemed approved. In determining what, if any, amendments to this chapter are to be adopted, the town council shall give due consideration to the proper relationship of such amendments to the entire zoning plan and the integrity and validity of the zoning districts herein described, and to avoidance of isolated unplanned spot-zoning changes in the zoning map. Any amendments adopted by the town council may be modified from the form in which they were advertised within the limits necessary to relate properly such amendment, or amendments, to the zoning plan and this chapter; provided, however, that no land may be zoned to a more intensive use classification than was contained in the public notice without an additional public hearing after notice, as required in subsection (c) of this section.
 - (2) In determining what, if any, amendments to the text of this chapter or the zoning map are to be adopted, the town council shall recognize that a certain element of stability is desirable in land use controls and that all citizens have the right to be treated reasonably; at the same time the council recognizes in adopting this chapter that conditions and standards will change, and that no citizen, whether a general resident of the town, a neighbor or an affected property owner, has the right to indefinite continuation of any zoning regulation or classification, and that a citizen, a property owner, the planning commission or the town council, in accordance with the law and the provisions of this chapter, may initiate a change which they believe will properly adjust the zoning regulations and map to the comprehensive plan or changed conditions and standards.

Sec. 42-12. Conditional zoning.

- (a) *Purpose.* Where competing and incompatible uses conflict, traditional zoning methods and procedures are sometimes inadequate. In such cases, more flexible and adaptable zoning methods are needed to permit differing land uses and at the same time to recognize effects of change. It is the purpose of

Subpart B - LAND DEVELOPMENT REGULATIONS

Chapter 42 ZONING

this section to provide a zoning method as authorized under Code of Virginia, § 15.2-2303, as amended, whereby a zoning reclassification may be allowed subject to certain conditions proffered by the zoning applicant for the protection of the community even though said conditions may not be generally applicable to land similarly zoned. While the conditions may vary from property to property by reason of the nature of the use and different circumstances at a particular location, it is not the intention of this section to authorize conditions limited to a particular individual or group, owner or operator, and the provisions of this section shall not be used for the purpose of discrimination in housing.

(b) *Proffer, in writing.*

- (1) As a part of a petition for rezoning or amendment of the zoning district map, the owner or owners of the property involved may, prior to a public hearing before the town council, voluntarily proffer, in writing, such reasonable conditions, in addition to the regulations provided for the zoning district or districts as herein set forth, as he deems appropriate for the particular case; provided that:
 - a. The rezoning itself must give rise for the need for the conditions;
 - b. Such conditions shall have a reasonable relation to the rezoning;
 - c. Such conditions shall not include a cash contribution to the town;
 - d. Such conditions shall not include mandatory dedication of real or personal property for open space, parks, schools, fire departments or other public facilities not otherwise provided for in the subdivision ordinance, chapter 40;
 - e. The conditions shall not include a requirement that the applicant create a property owners' association under the Code of Virginia, § 55-508, et seq., which includes an express further condition that members of a property owners' association pay an assessment for the maintenance of public facilities owned in fee by a public entity, including open space, parks, schools, fire departments and other public facilities not otherwise provided for in Code of Virginia, § 15.2-2241; however, such facilities shall not include sidewalks, special street signs or markers, or special street lighting in public rights-of-way not maintained by the Virginia Department of Transportation;
 - f. Such conditions shall not include payment for off-site improvements, except those provided for in the subdivision ordinance, chapter 40;
 - g. No condition shall be proffered that is not related to the physical development or physical operation of the property; and
 - h. All such conditions shall be in conformity with the comprehensive plan.
- (2) For the purpose of this chapter, proffered conditions shall be interpreted to include written statements, development plans, profiles, elevations, and/or other demonstrative materials. Materials of whatever nature and intended as conditions shall be annotated with the following statement signed by the owner, or owners, of the subject property: "I (we) hereby proffer that the development of the subject property of this application shall be in strict accordance with the conditions set forth in this submission."
- (3) Once proffered and accepted as part of an amendment to the zoning ordinance, such conditions shall continue in full force and effect until a subsequent amendment changes the zoning on the property covered by such conditions; provided, however, that such conditions shall continue if the subsequent amendment is part of a comprehensive implementation of a new or substantially revised zoning ordinance.

(c) *Review and revision of proffered conditions.*

- (1) Additional conditions or modified conditions may be proffered by the applicant during, or subsequent to, the public hearing before the planning commission; provided, however, that after proffered conditions are signed and made available for public review and the public hearing before

Subpart B - LAND DEVELOPMENT REGULATIONS

Chapter 42 ZONING

the town council has been advertised (whether or not jointly held with the planning commission) no change or modification to any condition shall be approved without a second advertised public hearing thereon.

- (2) After the town council public hearing has been advertised or commenced, should additional or modified conditions be proffered by the applicant, which conditions were discussed at the public hearing before the planning commission, then a second public hearing need be held only before the town council before the application and the modified conditions can be approved.
 - (3) Should additional conditions be proffered by the applicant at the time of the public hearing before the town council, which conditions were not addressed at the public hearing before the planning commission, or if the proffered conditions are modified beyond the scope of any conditions considered at the public hearing before the planning commission, the application shall be the subject of a second public hearing before both the planning commission and the town council, which hearing may be either separately or jointly held.
- (d) *Annotation of zoning map.* The zoning map shall show, by an appropriate symbol on the map, the existence of conditions attaching to the zoning on the map. The administrator shall keep in his office, and make available for public inspection, a conditional zoning index. The index shall provide ready access to the ordinance creating conditions, in addition to the regulations provided for in a particular zoning district. Such conditions shall become a part of the zoning regulations applicable to the property in question, regardless of changes in ownership or operation, unless subsequently changed by an amendment to the zoning map, and such conditions shall be in addition to the specific regulations set forth in this chapter for the zoning district in question. The Index shall also provide ready access to all proffered cash payments and expenditures disclosure reports prepared by the town council, pursuant to Code of Virginia, § 15.2-2303.2. The zoning administrator shall update the Index annually and no later than November 30 of each year.
- (e) *Enforcement of conditions.*
- (1) The administrator shall be vested with all necessary authority, on behalf of the town council, to administer and enforce conditions attached to such rezoning or amendment to the zoning map, including:
 - a. The ordering, in writing, of the remedy of any noncompliance with such conditions;
 - b. The bringing of legal action to ensure compliance with such conditions, including injunction, abatement or other appropriate action or proceeding; and
 - c. Requiring a guarantee, satisfactory to the town council, in an amount sufficient for and conditioned upon the construction of any physical improvements required by the conditions, or a contract for the construction of such improvements and the contractor's guarantee, in like amount and so conditioned, which guarantee shall be reduced or released by the town council, or agent thereof, upon the submission of satisfactory evidence that construction of such improvements has been completed in whole or in part.
 - (2) Provided, further, that failure to meet all conditions shall constitute cause to deny the issuance of any of the required use, occupancy, or building permits, as may be appropriate.
- (f) *Conformity of development plans.* Upon approval, any site plan, subdivision plat or development plan thereafter submitted for the development of the property in question shall be in substantial conformity with all proffered statements, plans, profiles, elevations or other demonstrative materials, and no development shall be approved by any town official in the absence of said substantial conformity. For the purpose of this section, substantial conformity shall mean that conformity which leaves a reasonable margin for adjustment to final engineering data but conforms with the general nature of the development, the specific uses and the general layout depicted by the plans, profiles, elevations and other demonstrative materials presented by the applicant.

Subpart B - LAND DEVELOPMENT REGULATIONS

Chapter 42 ZONING

- (g) *Change of approved conditions.* Once conditions have been approved, and there is cause for an amendment which would not be in substantial conformity with the proffered conditions, then an application shall be filed for an amendment. If the amendment concerns an approved site plan, such application shall include the submission requirements for a site plan set forth in article XXI of this chapter, except that the administrator may waive any submission requirement if such requirement is not necessary for an adequate review of the site plan amendment application. Such amendment shall be the subject of public hearing in accordance with the requirements for a new application.
- (h) *Review of the administrator's decision.* Any zoning applicant who is aggrieved by the decision of the administrator pursuant to the provisions of subsection (e) of this section may petition the town council for the review of the decision of the administrator. All petitions for review shall be filed with the zoning administrator and with the clerk of the town council within 30 days from the date of the decision for which review is sought and shall specify the grounds upon which the petitioner is aggrieved.

Sec. 42-13. Permits to be issued in compliance with chapter.

All departments, officials and public employees of this jurisdiction which are vested with the duty or authority to issue permits or licenses shall conform to the provisions of this chapter and shall issue permits for uses, buildings or purposes only when they are in harmony with the provisions of this chapter. Any such permit issued in conflict with the provisions of this chapter shall be null and void.

Sec. 42-32. Statement of intent.

The primary purpose of this district is the protection of agricultural operations in portions of the town appropriate for such uses and in general to prohibit those uses which would be incompatible with agriculture. At the same time the district would provide for rural low-density residence and certain public and semi-public uses in a spacious environment. While land use in the district is generally rural, it is nevertheless located near urban development and where urban services can be extended at the appropriate time. Therefore permanent preservation of agriculture is not intended and certain more intensive agricultural uses would be permitted only by conditional use permit.

(Code 1972, § 30-14; Code 1992, § 30-14)

Sec. 42-33. Permitted uses.

In the A Agricultural District, structures to be erected, or land to be used, shall be for one or more of the following uses:

- (1) Single-family dwellings, including a family and one unrelated individual per unit.
- (2) Agriculture and forestry.
- (3) Pens for animals or poultry or those intensive agricultural operations commonly known as confinement operations where large numbers of animals or fowl are confined to a relatively small space, such as veal or poultry pens or houses, feedlots and dairying operations, with a conditional use permit. An enclosure for less than 100 fowl and enclosed pasture or range with an area in excess of 100 square feet for each small animal or 4,000 square feet for each larger animal, such as horses, ponies, cattle or sheep, shall not require a conditional use permit.
- (4) Public buildings to consist of fire, police and rescue squad stations, schools and recreational facilities. Private buildings to consist of schools and recreational facilities, with a conditional use permit.
- (5) Parks and playgrounds.
- (6) Churches and other places of worship.
- (7) Sawmills, temporary, with a conditional use permit.
- (8) Planing mills, temporary, with a conditional use permit.
- (9) Airports and heliports, with a conditional use permit.

- (17) Accessory buildings and uses, including temporary wayside stands for seasonal sales of products raised or made on the premises; provided, that garages or other accessory structures, such as carports, porches and stoops attached to the main building, shall be considered part of the main building; provided further, that no accessory building shall be closer than three feet to any property line or located within any easement or right-of-way.
- (18) Industrialized building units for agricultural, institutional, security or construction purposes, with a conditional use permit. A conditional use permit shall not be required for construction trailers on active construction sites.

Except for campground record keeping, commercial or other business activities shall be limited to the campground and its occupants and conducted only when authorized by conditional use permit which shall specify the parameters of the commercial activities.

- (22) Family day homes serving one through five children.
- (23) Child day care centers as an accessory use, but not accessory structure, to an existing and permitted institutional use with a conditional use permit.

Sec. 42-217. Statement of intent.

This district is intended as a transitional district for the combination of medium density residential uses and the conduct of limited business. This district will provide for a variety in housing types as well as for those public and semi-public uses and accessory uses, as may be necessary or are normally associated with residential surroundings, while including such business uses as retail stores, banks, theaters, business and professional offices, day care centers, restaurants and service stations which the public requires direct and frequent access, but which is not characterized either by constant heavy trucking other than stocking and delivery of light retail goods or by any nuisance factors other than occasioned by incidental light and noise of congregation of people and passenger vehicles. This district is intended to serve as a buffer between purely residential districts and districts which allow general commercial activity. Emphasis will be placed upon planned development with binding conditions to ensure the protection of both neighboring residential areas and residences within the district.

upon the individual lots. Maintenance to exteriors, lawns, special lighting and drainage shall be provided in a manner so as to discharge any responsibility for the town.

- (k) Whenever any development containing common area is proposed by a developer, and before any permit for the erection of structures shall be granted, the developer, or his agent, shall apply, in writing, to the agent for the approval of the plat and submit three copies of the plat, including the lot, street and utilities layout to a scale of not less than one inch equals 50 feet. The zoning administrator/town manager may waive this requirement in circumstances that sidewalks do not provide desired connectivity and/or are not physically practical due to site limitations, provided the owner/developer makes a contribution in an amount approximate to the sidewalk installation cost to the town to be utilized for sidewalk improvements and/or repairs in other locations. The zoning administrator/town manager may refer the decision regarding the connectivity and/or practicality to the planning commission should there be any doubts. The town manager/town engineer shall make the determination of the approximate sidewalk installation cost.

Sec. 42-248. Statement of intent.

This district is intended as a transitional district to provide for the combination of medium density residential uses and the conduct of limited business and industrial activity to which the public requires direct and frequent access, but which is not characterized either by constant heavy trucking other than stocking and delivery of light retail goods or by any nuisance factors other than occasioned by incidental light and noise of congregation of people and passenger vehicles, and for a variety of light manufacturing, fabricating and processing uses appropriately located for access by highways providing a controlled environment. Uses are to be conducted within completely enclosed buildings or within screened areas. This district is intended to serve as a buffer between purely residential districts and districts which allow general commercial and industrial activity. Emphasis will be placed upon planned development with binding conditions to ensure the protection of both neighboring residential areas and residences within the district.

Other access designs may be approved by the administrator with consideration being given to overall site conditions and traffic patterns in keeping with article XXI, Site Plan Review.
- (j) If a development includes common areas in addition to the individual lots, the common areas shall be maintained by, and be the sole responsibility of, the developer-owner of the development until such time as the developer-owner conveys such common area to a nonprofit corporate owner whose members shall be all of the individual owners of the individual lots in the development. Said land shall be conveyed to, and be held by, said nonprofit corporate owner solely for the benefit of the owners of the individual lots in the development. In the event of such conveyance by the developer-owner to a nonprofit corporate owner, deed restrictions and covenants shall provide, among other things, that any assessments, charges for cost of maintenance of such common areas shall constitute a pro rata lien upon the individual lots. Maintenance to exteriors, lawns, special lighting and drainage shall be provided in a manner so as to discharge any responsibility for the town.
- (k) Whenever any development containing common area is proposed by a developer, and before any permit for the erection of structures shall be granted, the developer, or his agent, shall apply, in writing, to the agent for the approval of the plat and submit three copies of the plat, including the lot, street and utilities layout to a scale of not less than one inch equals 50 feet. The greenspace shall contain trees with a minimum height, at time of planting, of six feet or more at the ratio of one tree per 400 square feet or less of greenspace area. Such greenspace is to be distributed uniformly around the perimeter of the site or distributed throughout the parking and pedestrian areas. For duplexes for individual sale, the greenspace or landscaped area in the front yard shall be maintained at a ratio of 20 percent for each dwelling unit on each lot. For this purpose, corner lots shall be deemed to contain a minimum of 20 percent greenspace or landscaped area in each yard fronting a public street.
- (o) A landscaping plan with all areas drawn to scale shall be submitted as part of the site plan.
- (p) Preservation of existing trees is encouraged and shall be credited toward the landscaping requirement.
- (q) Sidewalks shall be required for all new development. Sidewalks shall be required whenever a new principal building is built or an existing principal building is renovated or expanded sufficiently to increase its value by 25 percent before a Certificate of Occupancy may be issued. The zoning administrator/town manager may waive this requirement in circumstances that sidewalks do not provide desired connectivity and/or are not physically practical due to site limitations, provided the owner/developer makes a contribution in an amount approximate to the sidewalk installation cost to the town to be utilized for sidewalk improvements and/or repairs in other locations. The zoning administrator/town manager may refer the decision regarding the connectivity and/or practicality to the planning commission should there be any doubts. The town manager/town engineer shall make the determination of the approximate sidewalk installation cost.

Sec. 42-283. Setback.

Structures, temporary or permanent, shall be located 30 feet or more from any street right-of-way, or, in the event that buildings are already constructed on the same side of the street in the block, no new structure shall be closer to the street right-of-way line than a distance equal to the average of the distance to the street right-of-way of all existing structures in the same block on the same side of the street. This shall be known as the setback line. See article XVII for special setback regulations pertaining to the widening of highways and streets. Parking lots shall have a minimum setback of 15 feet from any street right-of-way. Restaurant outdoor dining areas shall have a minimum setback of 15 feet from any street right-of-way

(Code 1972, § 30-69; Code 1992, § 30-91; Ord. of 4-3-1990; Ord. No. 2002-2, 3-5-2002; Ord. No. 2004-4, 9-7-2004; Ord. No. 2007-1, 4-3-2007)

Sec. 42-284. Yards.

- (a) No building or structure shall be located closer than 20 feet to the boundary of a residential district or located within any easement or right-of-way.
- (b) A minimum of 20 percent of the site shall be reserved for greenspace landscaping with no more than 50 percent of the greenspace in grass alone. The greenspace shall contain trees with a minimum height at time of planting of six feet or more at the ratio of one tree per 400 square feet or less of greenspace area. Such greenspace is to be distributed uniformly around the perimeter of the site or distributed throughout the parking and pedestrian areas.
- (c) A landscaping plan with all areas drawn to scale shall be submitted as part of the site plan.
- (d) Preservation of existing trees is encouraged and shall be credited toward the landscaping requirement.
- (e) Sidewalks shall be required for all new development. In lieu of sidewalks, an owner-developer may provide a paved multi-use trail if approved by the town manager. The trail must be a minimum of ten feet in width and adjoin the street right-of-way. A trail must run the entire road frontage of the parcel. In the absence of unreasonable hardship, the town manager will not approve a trail for parcels whose adjoining parcels have sidewalks such that a trail connects to a sidewalk. The zoning administrator/town manager may waive this requirement in circumstances that sidewalks do not provide desired connectivity and/or are not physically practical due to site limitations provided the owner/developer makes a contribution in an amount approximate to the sidewalk installation cost to the town to be utilized for sidewalk improvements and/or repairs in other locations. The zoning administrator/town manager may refer the decision regarding the connectivity and/or practicality to the planning commission should there be any doubts. The town manager/town engineer shall make the determination of the approximate sidewalk installation cost.

Sidewalks shall be required whenever a new principal building is built or an existing principal building is renovated or expanded sufficiently to increase its value by 25 percent before a certificate of occupancy may be issued.

Other access designs may be approved by the administrator with consideration being given to overall site conditions and traffic patterns in keeping with article XXI, Site Plan Review.
- (b) If a development includes common areas in addition to the individual lots, the common areas shall be maintained by, and be the sole responsibility of, the developer-owner of the development until such time as the developer-owner conveys such common area to a nonprofit corporate owner whose members shall be all of the individual owners of the individual lots in the development. Said land shall be conveyed to, and be held by, said nonprofit corporate owner solely for the benefit of the owners of the individual lots in the development. In the event of such conveyance by the developer-owner to a nonprofit corporate owner, deed restrictions and covenants shall provide, among other things, that any assessments, charges for cost of maintenance of such common areas shall constitute a pro rata lien upon the individual lots. Maintenance to exteriors, lawns, special lighting and drainage shall be provided in a manner so as to discharge any responsibility for the town.
- (c) Whenever any development containing common area is proposed by a developer, and before any permit for the erection of structures shall be granted, the developer, or his agent, shall apply, in writing, to the agent for the approval of the plat and submit three copies of the plat, including the lot, street and utilities layout to a scale of not less than one inch equals 50 feet. No lots shall be sold until a final plat for the development shall have been approved by council and recorded in the office of the clerk of the county within 60 days after notification of final approval by the agent; otherwise, the approval shall become invalid.
- (d) Provisions shall be made to ensure that nonpublic areas for the common use of occupants shall be maintained without expense to the town.
- (e) No business or commercial building or structure, temporary or permanent, shall be located closer than 20 feet to the boundary of a residential district or located within any easement or right-of-way. Residential development shall comply with all frontage, lot, yards and development standards for similar development in the R-3 Multiple-Family Residential District, unless such residence is part of the business building or structure.
- (f) A minimum of 20 percent of the site shall be reserved for greenspace landscaping with no more than 50 percent of the greenspace in grass alone. The greenspace shall contain trees with a minimum height, at time of planting, of six feet or more at the ratio of one tree per 400 square feet or less of greenspace area. Such greenspace is to be distributed uniformly around the perimeter of the site or distributed throughout the parking and pedestrian areas.
- (g) A landscaping plan with all areas drawn to scale shall be submitted as part of the site plan.
- (h) Preservation of existing trees is encouraged and shall be credited toward the landscaping requirement.
- (i) Sidewalks shall be required for all new development. In lieu of sidewalks, an owner or developer may provide a paved multi-use trail if approved by the town manager. The trail must be a minimum of ten feet in width and adjoin the street right-of-way. A trail must run the entire road frontage of the parcel. In the absence of unreasonable hardship, the town manager will not approve a trail for parcels whose adjoining parcels have sidewalks such that a trail connects to a sidewalk. The zoning administrator/town manager may waive this requirement in circumstances that sidewalks do not provide desired connectivity and/or are not physically practical due to site limitations, provided the owner/developer makes a contribution in an amount approximate to the sidewalk installation cost to the town to be utilized for sidewalk improvements and/or repairs in other locations. The zoning administrator/town manager may refer the decision regarding the connectivity and/or practicality to the planning commission should there be any doubts. The town manager/town engineer shall make the determination of the approximate sidewalk installation cost.

Subpart B - LAND DEVELOPMENT REGULATIONS

Chapter 42 ZONING

Sidewalks shall be required whenever a new principal building is built or an existing principal building is renovated or expanded sufficiently to increase its value by 25 percent before a certificate of occupancy may be issued.

Sec. 42-435. Purpose.

The purpose of these provisions is to prevent the loss of property and life, the creation of health and safety hazards, the disruption of commerce and governmental services, the extraordinary and unnecessary expenditure of public funds for flood protection and relief, and the impairment of the tax base by:

- (1) Regulating uses, activities and development, which, acting alone or in combination with other existing or future uses, activities and development, will cause unacceptable increases in flood heights, velocities and frequencies.
- (2) Restricting or prohibiting certain uses, activities and development from locating within areas subject to flooding.
- (3) Requiring all those uses, activities and developments that do occur in floodprone areas to be protected and/or floodproofed against flooding and flood damage.
- (4) Protecting individuals from buying lands and structures which are unsuited for intended purposes because of flood hazards.

(Code 1972, § 30-99; Code 1992, § 30-121; Ord. No. 2004-4, § 30-99, 9-7-2004)

Sec. 42-436. Applicability.

These provisions shall apply to all lands within the jurisdiction of the town and identified as being in the 100-year floodplain by the Federal Insurance Administration.

(Code 1972, § 30-100; Code 1992, § 30-122; Ord. No. 2004-4, § 30-100, 9-7-2004)

Sec. 42-437. Compliance.

No land shall hereafter be developed and no structure shall be located, relocated, constructed, reconstructed, enlarged or structurally altered, except in full compliance with the terms and provisions of this article and any other applicable ordinance and regulations which apply to uses within the jurisdiction of this article.

Subpart B - LAND DEVELOPMENT REGULATIONS

Chapter 42 ZONING

(Code 1972, § 30-101; Code 1992, § 30-123; Ord. No. 2004-4, § 30-101, 9-7-2004)

Sec. 42-438. Abrogation and greater restrictions.

This article supersedes any ordinance currently in effect in floodprone areas. However, any underlying ordinance shall remain in full force and effect to the extent that its provisions are more restrictive than this article.

(Code 1972, § 30-102; Code 1992, § 30-124; Ord. No. 2004-4, § 30-102, 9-7-2004)

Sec. 42-439. Establishment and description of districts.

(a) *Basis of districts.* The various floodplain districts shall include special flood hazard areas. The basis for the delineation of these districts shall be the Flood Insurance Study (FIS) and the Flood Insurance Rate Maps (FIRM) for the county and the town prepared by the Federal Emergency Management Agency, Federal Insurance Administration, dated September 25, 2009, as amended (maps may be viewed on the official FEMA website).

- (1) The floodway district is delineated for purposes of this article using the criteria that certain areas within the floodplain must be capable of carrying the waters of the 100-year flood without increasing the water surface elevation of that flood more than one foot at any point. These areas included in this district are specifically defined in Table 2 of the above-referenced Flood Insurance Study and shown on the accompanying Flood Boundary and Floodway Map or Flood Insurance Rate Map.
- (2) The flood-fringe district shall be that area of the 100-year floodplain not included in the floodway district. The basis for the outermost boundary of this district shall be the 100-year flood elevations contained in the flood profiles of the above-referenced flood insurance study and as shown on the accompanying Flood Boundary and Floodway Map or Flood Insurance Rate Map. The special floodplain district shall be those areas identified as an AE Zone on the maps accompanying the Flood Insurance Study for which 100-year flood elevations have been provided.
- (3) The approximated floodplain district shall be that floodplain area for which no detailed flood profiles or elevations are provided, but where a 100-year floodplain boundary has been approximated. Such areas are shown as Zone A on the maps accompanying the flood insurance study. For these areas, 100-year flood elevations and floodway information from other federal, state or other acceptable source shall be used, when available. Where the specific 100-year flood elevation cannot be determined for this area using other sources of data, such as:
 - a. Corps of Engineers—Floodplain information reports.
 - b. U.S. Geological Survey—Floodprone quadrangles.
 - c. U.S.D.A., Soil Conservation Service—Flood hazard analyses.
 - d. Known highway marks from past floods.
 - e. Tennessee Valley Authority flood reports.
 - f. Other sources.

Then the applicant for the proposed use, development and/or activity shall determine this elevation in accordance with hydrologic and hydraulic analyses which shall be undertaken only by professional engineers or others of demonstrated qualifications, who shall certify that the technical methods used correctly reflect currently accepted technical concepts. Studies, analyses, computations, etc., shall be submitted in sufficient detail to allow a thorough review by the town.

Subpart B - LAND DEVELOPMENT REGULATIONS

Chapter 42 ZONING

(b) *Overlay concept.*

- (1) The floodplain districts described above shall be overlays to the existing underlying districts as shown on the official zoning ordinance map, and as such, the provisions for the floodplain districts shall serve as a supplement to the underlying district provisions.
- (2) In any conflict between the provisions or requirements of any of the floodplain districts and those of any underlying district the more restrictive provisions and/or those pertaining to the floodplain districts shall apply.
- (3) In the event any provision concerning a floodplain district is declared inapplicable as a result of any legislative or administrative actions or judicial discretion, the basic underlying district provisions shall remain applicable.

(Code 1972, § 30-103; Code 1992, § 30-125; Ord. of 9-5-1995; Ord. No. 2004-4, § 30-103, 9-7-2004; Ord. No. 2009-7, § 30-103, 9-15-2009)

Sec. 42-440. Official floodplain districts zoning map.

The boundaries of the floodplain districts are established as shown on the Flood Boundary and Floodway and/or Flood Insurance Rate Map which is declared to be a part of this article and which shall be kept on file at the town municipal offices (and may also be viewed on the official FEMA website).

(Code 1972, § 30-104; Code 1992, § 30-126; Ord. No. 2004-4, § 30-104, 9-7-2004; Ord. No. 2009-7, § 30-104, 9-15-2009)

Sec. 42-441. District boundary changes.

The delineation of any of the floodplain districts may be revised by the town council where natural or manmade changes have occurred and/or more detailed studies conducted or undertaken by the U.S. Army Corps of Engineers or other qualified agency or individual documents the need for such changes. However, prior to any such change, approval must be obtained from the Federal Insurance Administration.

(Code 1972, § 30-105; Code 1992, § 30-127; Ord. No. 2004-4, § 30-105, 9-7-2004)

Sec. 42-442. Interpretation of district boundaries.

Initial interpretations of the boundaries of the floodplain districts shall be made by the zoning administrator. Should a dispute arise concerning the boundaries of any of the districts, the board of zoning appeals shall make the necessary determination. The person questioning or contesting the location of the district boundary shall be given a reasonable opportunity to present his case to the board and to submit his own technical evidence, if he so desires.

(Code 1972, § 30-106; Code 1992, § 30-128; Ord. No. 2004-4, § 30-106, 9-7-2004)

Sec. 42-443. District provisions.

- (a) *General.* All uses, activities and development occurring within any floodplain district shall be undertaken only upon the issuance of a zoning permit. Such development shall be undertaken only in strict compliance with the provisions of this article and with all other applicable codes and ordinances,

Subpart B - LAND DEVELOPMENT REGULATIONS

Chapter 42 ZONING

such as the Virginia Uniform Statewide Building Code and the town subdivision regulations. Prior to the issuance of any such permit, the zoning officer shall require all applications to include compliance with all applicable state and federal laws. Under no circumstances shall any use, activity, and/or development adversely affect the capacity of the channels or floodways of any watercourse, drainage ditch or any other drainage facility or system.

- (b) *Alterations or relocation of channels or floodways.* Prior to any proposed alteration or relocation of any channels or floodways of any watercourse, stream, etc., within this jurisdiction a permit from the U. S. Army Corps of Engineers, the Virginia Marine Resources Commission and certification from the Virginia Department of Environmental Quality is necessary (a joint permit application is available from any of these organizations). Further, notification of the proposal shall be given to all affected adjacent jurisdictions, the division of dam safety and floodplain management (department of conservation and recreation), and the Federal Insurance Administration.
- (c) *Site plans and building permits.* All applications for development in the floodplain district and all building permits issued for the floodplain shall incorporate the following information:
 - (1) For structures that have been elevated, the elevation of the lowest floor (including basement).
 - (2) For structures that have been floodproofed (nonresidential only), the elevation to which the structure has been floodproofed.
 - (3) The elevation of the 100-year flood.
 - (4) Topographic information showing existing and proposed ground elevations.
- (d) *Manufactured homes and recreational vehicles.* All manufactured homes to be placed or substantially improved within the floodplain district shall be placed on a permanent foundation and elevated and anchored in accordance with the Virginia Uniform Statewide Building Code. All recreational vehicles placed on sites must either:
 - (1) Be on the site for fewer than 180 consecutive days;
 - (2) Be fully licensed and ready for highway use (a recreational vehicle is ready for highway use if it is on its wheels or jacking system, is attached to the site only by quick disconnect type utilities and security devices, and has no permanently attached additions); or
 - (3) Meet all the requirements for manufactured homes.
- (e) *Design criteria for utilities and facilities.*
 - (1) *Sanitary sewer facilities.* All new or replacement sanitary sewer facilities and private package sewage treatment plants (including all pumping stations and collector systems), shall be designed to minimize or eliminate infiltration of floodwaters into the systems and discharges from the systems into the floodwaters. In addition, they should be located and constructed to minimize or eliminate flood damage and impairment.
 - (2) *Water facilities.* All new or replacement water facilities shall be designed to minimize or eliminate infiltration of floodwaters into the system and be located and constructed to minimize or eliminate flood damages.
 - (3) *Drainage facilities.* All storm drainage facilities shall be designed to convey the flow of surface waters without damage to persons or property. The systems shall ensure drainage away from buildings and on-site waste disposal sites. The town council, or its designated agent, may require a primary underground system to accommodate frequent floods and a secondary surface system to accommodate larger, less frequent floods. Drainage plans shall be consistent with local and regional drainage plans. The facilities shall be designed to prevent the discharge of excess runoff onto adjacent properties.

Subpart B - LAND DEVELOPMENT REGULATIONS

Chapter 42 ZONING

- (4) *Utilities.* All utilities, such as gas lines, electrical and telephone systems, being placed should be located, elevated (where possible), and constructed to minimize the chance of impairment during a flooding occurrence.
- (5) *Streets and sidewalks.* Streets and sidewalks should be designed to minimize their potential for increasing and aggravating the levels of flood flow. Drainage openings shall be required to sufficiently discharge flood flows without unduly increasing flood heights.
- (f) *Residential construction.* New construction or additions of any residential structure (including manufactured homes) shall have the lowest floor, including basement, elevated no lower than one foot above the base flood elevation.
- (g) *Nonresidential construction.* New construction or additions of any commercial, industrial or nonresidential building (or manufactured home) shall have the lowest floor, including basement, elevated to no lower than one foot above the base flood elevation. Buildings located in all A1-30, AE and AH Zones may be floodproofed in lieu of being elevated, provided that all areas of the building components below the elevation corresponding to the BFE, plus one foot are watertight with walls substantially impermeable to the passage of water, and use structural components having the capability of resisting hydrostatic and hydrodynamic loads and the effect of buoyancy. A registered professional engineer or architect shall certify that the standards of this subsection are satisfied.

(Code 1972, § 30-107; Code 1992, § 30-129; Ord. No. 2004-4, § 30-107, 9-7-2004; Ord. No. 2009-7, § 30-107, 9-15-2009)

Sec. 42-444. Floodway district.

- (a) In the floodway district no development shall be permitted except where the effect of such development on flood heights is fully offset by accompanying improvements which have been approved by all appropriate local and/or state authorities, as required above.
- (b) Encroachments, including fill, new construction, substantial improvements and other developments are prohibited unless certification (with supporting technical data) by a registered professional engineer is provided demonstrating that encroachments shall not result in any increase in flood levels during occurrence of the base flood.
- (c) Development activities which increase the water surface elevation of the base flood may be allowed, provided that the applicant first applies, with the town's endorsement, for a conditional Flood Insurance Rate Map and floodway revision, and receives the approval of the Federal Emergency Management Agency.
- (d) All new construction and substantial improvements shall comply with all applicable flood hazard reduction provisions of this article.
- (e) The placement of manufactured homes (mobile homes) is prohibited, except in an existing manufactured homes (mobile homes) park or subdivision. A replacement manufactured home may be placed on a lot in an existing manufactured home park or subdivision, provided the anchoring, elevation and encroachment standards are met.
- (f) Permitted uses. In the floodway district the following uses and activities are permitted, provided that they are in compliance with the provisions of the underlying district and are not prohibited by any other ordinance and provided that they do not require structures, fill or storage of materials and equipment:
 - (1) Agricultural uses, such as general farming, pasture, grazing, outdoor plant nurseries, horticulture, truck farming, forestry, sod farming and wild crop harvesting.
 - (2) Public and private recreational uses and activities, such as parks, day camps, picnic grounds, golf courses, boat launching and swimming areas, hiking and horseback riding trails, wildlife and

nature preserves, game farms, fish hatcheries, trap and skeet game ranges and hunting and fishing areas.

- (3) Accessory residential uses, such as yard areas, gardens, play areas and pervious loading areas.
- (4) Accessory industrial and commercial uses, such as yard areas, pervious parking and loading areas, airport landing strips, etc.

(Code 1972, § 30-108; Code 1992, § 30-130; Ord. No. 2004-4, § 30-108, 9-7-2004; Ord. No. 2009-7, § 30-108, 9-15-2009)

State Law reference— Uniform regulations for manufactured housing, Code of Virginia, § 15.2-2290.

Sec. 42-445. Flood-fringe and approximated floodplain districts.

- (a) In the flood-fringe and approximated floodplain districts, the development and/or use of land shall be permitted in accordance with the regulations of the underlying district, provided that all such uses, activities and/or development shall be undertaken in strict compliance with the floodproofing and related provisions contained in the Virginia Uniform Statewide Building Code and all other applicable codes and ordinances.
- (b) Until a regulatory floodway is designated, no new construction, substantial improvements or other development (including fill) shall be permitted within the areas of special flood hazard, designated as Zones A1-30 and AE on the Flood Rate Insurance Map, unless it is demonstrated that the cumulative effect of the proposed development, when combined with all other existing and anticipated development will not increase the water surface elevation of the base flood more than one foot at any point within the town.
- (c) Development activities in Zones A1-30, AE and AH on the town's Flood Insurance Rate Map which increase the water surface elevation of the base flood by more than one foot may be allowed, provided that the applicant first applies, with the town's endorsement, for a conditional Flood Insurance Rate Map revision, and receives the approval of the Federal Emergency Management Agency.

Sec. 42-446. Variances; additional factors to be considered.

- (a) In passing upon applications for variances, the board of zoning appeals shall satisfy all relevant factors and procedures specified in other sections of the zoning ordinance and the following factors:
 - (1) The danger of life and property due to increased flood heights or velocities caused by encroachments. No special exception or variance shall be granted for any proposed use, development or activity within the floodway district that will cause any increase in flood levels during the 100-year flood.
 - (2) The danger that materials may be swept onto other lands or downstream to the injury of others.
 - (3) The proposed water supply and sanitation systems and the ability of these systems to prevent disease, contamination and unsanitary conditions.
 - (4) The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owners.

Subpart B - LAND DEVELOPMENT REGULATIONS

Chapter 42 ZONING

- (5) The importance of the services provided by the proposed facility to the community.
 - (6) The requirements of the facility for a waterfront location.
 - (7) The availability of alternative locations not subject to flooding for the proposed use.
 - (8) The compatibility of the proposed use with existing development and development anticipated in the foreseeable future.
 - (9) The relationship of the proposed use to the comprehensive plan and floodplain management program for the area.
 - (10) The safety of access by ordinary and emergency vehicles to the property in time of flood.
 - (11) The expected heights, velocity, duration, rate of rise and sediment transport of the floodwaters expected at the site.
 - (12) Such other factors which are relevant to the purpose of this article.
- (b) The board of zoning appeals may refer any application and accompanying documentation pertaining to any request for a variance to any engineer or other qualified person or agency for technical assistance in evaluating the proposed project in relation to flood heights and velocities, and the adequacy of the plans for protection and other related matters.
- (c) Variances shall be issued only after the board of zoning appeals has determined that the granting of such will not result in:
- (1) Unacceptable or prohibited increases in flood heights;
 - (2) Additional threats to public safety;
 - (3) Extraordinary public expense;
 - (4) Creating nuisances;
 - (5) Causing fraud or victimization of the public; or
 - (6) Conflict with local laws or ordinances.
- (d) Variances shall be issued only after the board of zoning appeals has determined that the variance will be the minimum required to provide relief from any hardship to the applicant.
- (e) Variances shall be issued only after the board of zoning appeals has held a public hearing on the request for variance in accordance with local and state requirements for such hearings.
- (f) The board of zoning appeals shall notify the applicant for a variance, in writing, that the issuance of a variance to construct a structure below the 100-year flood elevation:
- (1) Increases risks to life and property; and
 - (2) Will result in increased premium rates for flood insurance.
- (g) A record shall be maintained of the above notification as well as all variance actions, including justification for issuance of the variances. Any variances which are issued shall be noted in the annual report submitted to the Federal Insurance Administrator.

Sec. 42-447. Existing structures in floodplain districts.

A structure, or use of a structure or premises, which lawfully existed before the enactment of these provisions, but which is not in conformity with these provisions, may be continued subject to the following conditions:

Subpart B - LAND DEVELOPMENT REGULATIONS

Chapter 42 ZONING

- (1) Existing structures and/or uses located in the floodway district shall not be expanded or enlarged (unless the effect of the proposed expansion or enlargement on flood heights is fully offset by accompanying improvements).
- (2) Any modification, alteration, repair, reconstruction or improvement of any kind to a structure, and/or use, located in any floodplain district to any extent, or amount of less than 50 percent of its market value, shall conform to the VA USBC.
- (3) The modification, alteration, repair, reconstruction or improvement of any kind to a structure, and/or use, regardless of its location in a floodplain district to an extent, or amount of 50 percent or more of its market value, shall be undertaken only in full compliance with this article and shall require the entire structure to conform to the VA USBC.
- (4) Uses of adjuncts thereof which are, or become, nuisances shall not be permitted to continue.

(Code 1972, § 30-111; Code 1992, § 30-133; Ord. No. 2004-4, § 30-111, 9-7-2004; Ord. No. 2009-7, § 30-111, 9-15-2009)

Sec. 42-448. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Base flood means the flood having a one percent chance of being equaled or exceeded in any given year.

Base flood elevation means the Federal Emergency Management Agency designated 100-year water surface elevation.

Basement means any area of the building having its floor sub-grade (below ground level) on all sides.

Board of zoning appeals means the board appointed to review appeals made by individuals with regard to decisions of the zoning administrator in the interpretation of this article.

Development means any manmade change to improved or unimproved real estate, including, but not limited to, buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations or storage of equipment or materials.

Elevated building means a non-basement building built to have the lowest floor elevated above the ground level by means of fill, solid foundation perimeter walls, pilings, or columns (posts and piers).

Encroachment means the advance or infringement of uses, plant growth, fill, excavation, buildings, permanent structures or development into a floodplain, which may impede or alter the flow capacity of a floodplain.

Existing manufactured home park or subdivision means a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including, at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed before the effective date of the floodplain management regulations adopted by the town.

Expansion to an existing manufactured home park or subdivision means the preparation of additional sites by the construction of facilities for servicing the lots on which the manufacturing homes are to be affixed (including the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads).

Flood or flooding means:

- (1) A general or temporary condition of partial or complete inundation of normally dry land areas from:

Subpart B - LAND DEVELOPMENT REGULATIONS

Chapter 42 ZONING

- a. The overflow of inland or tidal waters; or
 - b. The unusual and rapid accumulation or runoff of surface waters from any source.
- (2) The collapse or subsistence of land along the shore of a lake, or other body of water, as a result of erosion or undermining, caused by waves or currents of water exceeding anticipated cyclical levels or suddenly caused by an unusually high water level in a natural body of water, accompanied by a severe storm, or by an unanticipated force of nature, such as flash flood or an abnormal tidal surge, or by some similarly unusual and unforeseeable event which results in flooding as defined in subsection (1)a of this definition.
- (3) Mudflows which are proximately caused by flooding, as defined in this article, and are akin to a river of liquid and flowing mud on the surfaces of normally dry land areas, as when earth is carried by a current of water and deposited along the path of the current.

Flood Insurance Rate Map (FIRM) means an official map of the town, on which is delineated both the special hazard areas and the risk premium zones applicable to the town.

Flood proofing means any combination of structural and non-structural additions, changes or adjustments to structures which reduce or eliminate flood damage to real estate or improved real property, water and sanitary facilities, structures and their contents.

Floodplain or flood-prone area means any land area susceptible to being inundated by water from any source.

Floodway means the channel of a river or other watercourse and the adjacent land areas that must be reserved in order to discharge the base flood without cumulatively increasing the water surface elevation more than a designated height.

Freeboard means a factor of safety usually expressed in feet, above a flood level for purposes of floodplain management. The term "freeboard" tends to compensate for the many unknown factors that could contribute to flood heights greater than the height calculated for a selected size flood and floodway conditions, such as wave action, bridge openings and the hydrological effect of urbanization in the watershed.

Highest adjacent grade means the highest natural elevation of the ground surface prior to construction next to the proposed walls of a structure.

Historic structure means any structure that is:

- (1) Listed individually in the National Register of Historic Places (a listing maintained by the Department of Interior) or preliminarily determined by the Secretary of the Interior as meeting the requirements for individual listing on the National Register;
- (2) Certified or preliminarily determined by the Secretary of the Interior as contributing to the historical significance of a registered historic district or a district preliminarily determined by the Secretary to qualify as a registered historic district;
- (3) Individually listed on a state inventory of historic places in states with historic preservation programs which have been approved by the Secretary of the Interior; or
- (4) Individually listed on a local inventory of historic places in communities with historic preservation programs that have been certified either:
 - a. By an approved state program, as determined by the Secretary of the Interior; or
 - b. Directly by the Secretary of the Interior in states without approved programs.

Lowest floor means the lowest floor of the lowest enclosed area, including basement. An unfinished or flood-resistant enclosure, usable solely for parking of vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor; provided, that such enclosure is not

Subpart B - LAND DEVELOPMENT REGULATIONS

Chapter 42 ZONING

built so as to render the structure in violation of the applicable non-elevation design requirements of Federal Code 44 CFR § 60.3.

Manufactured home means a structure, transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when connected to the required utilities. For floodplain management purposes, the term "manufactured home" also includes park trailers, travel trailers and other similar vehicles placed on a site for greater than 180 consecutive days.

Manufactured home park or subdivision means a parcel, or contiguous parcels, of land divided into two or more manufactured home lots for rent or sale.

New construction, for the purposes of determining insurance rates, means structures for which the start of construction commenced on or after the effective date of an initial Flood Insurance Rate Map on or after December 31, 1974, whichever is later, and includes any subsequent improvements to such structures. For floodplain management purposes, the term "new construction" means structures for which start of construction commenced on or after the effective date of a floodplain management regulation adopted by the town and includes any subsequent improvements to such structures.

New manufactured home park or subdivision means a manufactured home park or subdivision for which the construction of facilities for servicing the lots on which the manufactured homes are to be affixed (including at a minimum, the installation of utilities, the construction of streets, and either final site grading or the pouring of concrete pads) is completed on or after the effective date of floodplain management regulations adopted by the town.

Recreational vehicle means a vehicle which is:

- (1) Built on a single chassis;
- (2) 400 square feet, or less, when measured at the largest horizontal projection;
- (3) Designed to be self-propelled or permanently towable by a light duty truck; and
- (4) Designed primarily not for use as a permanent dwelling but as temporary living quarters for recreational camping, travel or seasonal use.

Shallow flooding area means a special flood hazard area with base flood depths from one to three feet where a clearly defined channel does not exist, where the path of flooding is unpredictable and indeterminate, and where velocity flow may be evident. Such flooding is characterized by ponding or sheet flow.

Special flood hazard area means the land in the floodplain subject to a one percent or greater chance of being flooded in any given year, as determined in this article.

Start of construction means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, rehabilitation, addition, placement, substantial improvement or other improvement was within 180 days of the permit date. The actual start means either the first placement of permanent construction of a structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure. For a substantial improvement, the actual start of the construction means the first alteration of any wall, ceiling, floor or other structural part of a building, whether or not that alteration affects the external dimensions of the building.

Structure, for floodplain management purposes, means a walled and roofed building, including a gas or liquid storage tank, that is principally above ground, as well as a manufactured home. The term "structure" for insurance coverage purposes, means a walled and roofed building, other than a gas or liquid storage tank, that is principally above ground and affixed to a permanent site, as well as a manufactured home on a permanent foundation. For the latter purpose, the term "structure" includes a building while in the course of construction, alteration or repair, but does not include building materials or supplies intended

Subpart B - LAND DEVELOPMENT REGULATIONS

Chapter 42 ZONING

for use in such construction, alteration or repair, unless such materials or supplies are within an enclosed building on the premises.

Substantial damage refers to damage of any origin sustained by a structure whereby the cost of restoring the structure to its before damaged condition would equal or exceed 50 percent of the market value of the structure before the damage occurred.

Substantial improvement.

- (1) The term "substantial improvement" means any reconstruction, rehabilitation, addition or other improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure before the start of construction of the improvement.
- (2) The term "substantial improvement" includes structures which have incurred substantial damage regardless of the actual repair work performed.
- (3) The term "substantial improvement" does not, however, include either:
 - a. Any project for improvement of a structure to correct existing violations of state or local health, sanitary or safety code specifications which have been identified by the local code enforcement official and which are the minimum necessary to ensure safe living conditions; or
 - b. Any alteration of a historic structure, provided that the alteration will not preclude the structure's continued designation as a *historic structure*.

Violation means the failure of a structure or other development to be fully compliant with the Town's flood plain management regulations. A structure or other development without the elevation certificate, other certifications or other evidence of compliance required in this article is presumed to be in violation until such time as that documentation is provided.

Watercourse means a lake, river, creek, stream, wash, channel or other topographic feature on or over which waters flow at least periodically. The term "watercourse" includes specifically designated areas in which substantial flood damage may occur.

(Code 1972, § 30-114; Code 1992, § 30-134; Ord. No. 2004-4, § 30-112, 9-7-2004; Ord. No. 2009-7, § 30-112, 9-15-2009)

Sec. 42-449. Municipal liability.

- (a) The degree of flood protection sought by the provisions of this article is considered reasonable for regulatory purposes and is based on accepted engineering methods of study. Larger floods may occur on rare occasions. Flood heights may be increased by manmade or natural causes, such as ice jams and bridge openings restricted by debris. This article does not imply that areas outside the floodplain districts, or that land uses permitted within such districts, will be free from flooding or flood damages.
- (b) Records of actions associated with administering this article shall be kept on file and maintained by the zoning administrator. This article shall not create liability on the part of the town, or any officer or employee thereof, for any flood damages that result from reliance on this article or any administrative decision lawfully made thereunder.

Chapter 42 ZONING

Sec. 42-499. Purpose of article.

The purpose of this article shall be to establish varying setback lines on specific streets which do not necessarily conform to the regular setback lines as established in each of the zoning districts. These streets, for the most part, are those streets designated in a study conducted by the Virginia Department of Transportation and adopted by the town council as thoroughfares and as such are scheduled to be widened and reconstructed to varying widths. The setback lines shall be established in order to provide an adequate setback for future building construction in the areas along these streets where additional rights-of-way and construction easements are planned.

(Code 1972, § 30-128; Code 1992, § 30-150; Ord. No. 2004-4, § 30-128, 9-7-2004)

Sec. 42-500. Adoption of certain reports by reference.

The Virginia Department of Transportation six-year improvement program and any transportation improvement program adopted by the town council shall be made a part of this chapter, by reference.

(Code 1972, § 30-129; Code 1992, § 30-151; Ord. No. 2004-4, § 30-129, 9-7-2004)

Sec. 42-501. Same—setback requirements.

Building setback lines on the streets enumerated in section 42-500 shall be measured from the future right-of-way lines or the lines shown as construction limits in the area functional plans of the town, whichever of the lines shall require the most setback, when such streets have approved local, state and/or federal funding.

(Code 1972, § 30-131; Code 1992, § 30-153; Ord. of 6-2-1998; Ord. No. 2004-4, § 30-131, 9-7-2004)

Sec. 42-502. Interpretation of setback lines.

If no distance or other means is given to determine a setback line accurately, the location of the line shall be determined by the use of the scale shown in the plans as contained in the area functional plans of the town.

(Code 1972, § 30-133; Code 1992, § 30-155; Ord. No. 2004-4, § 30-133, 9-7-2004)

Sec. 42-520. Required permits; application for conditional use permit.

The location of mobile home parks shall require, in addition to the zoning permit and certificate of occupancy, a conditional use permit issued by the town council. The application for the conditional use permit shall include, but shall not be limited to, a site plan of the mobile home park drawn to scale by a certified land surveyor or professional engineer showing:

- (1) Street or roadway layout.
- (2) Water layout.
- (3) Sanitary sewer or septic tank layout.
- (4) Groundwater drainage plan.
- (5) Lot layout.
- (6) Position of trailers on lots.
- (7) Landscape plan, recreation and service facilities.

(Code 1972, § 30-134; Code 1992, § 30-156; Ord. No. 2004-4, § 30-134, 9-7-2004)

Sec. 42-521. Design generally.

- (a) The number and location of access drives shall be controlled for traffic safety and protection of surrounding properties, and no mobile home space shall be designed for direct access to a street outside the boundaries of the park.
- (b) The topography of the site shall be such as to facilitate drainage, and adequate drainage facilities shall be provided. The overall design shall evidence a reasonable effort to preserve the natural amenities of the site, particularly mature trees.
- (c) Each mobile home park shall provide not less than one multiple purpose developed recreational area of at least 10,000 square feet in area for the use of occupants of the park. Any part of the mobile home park not used for buildings or other structures, off-street parking, recreation uses, drives and pedestrian walks, central laundry drying yards or garbage and trash collection stations, or other uses, shall be planted with appropriate ground cover, trees, flowers, shrub and grass lawns, all of which shall be properly maintained. Where no trees exist, at least two shade trees shall be planted and properly maintained on each mobile home site.

(Code 1972, § 30-135; Code 1992, § 30-157; Ord. No. 2004-4, § 30-135, 9-7-2004)

Sec. 42-522. Lots and parking.

Each mobile home space or lot within a park shall have a central water and sewer system designed to accommodate one mobile home and shall have a minimum width of 40 feet, minimum depth of 125 feet

Sec. 42-626. Procedures, administrative site plan review.

- (a) When these regulations require site plan review for certain uses for which town council action is not required, a preliminary site plan for any of the specified uses shall be submitted to the administrator for review of the plans for compliance with these regulations and the requirements for preliminary site plans. The administrator shall transmit said plans to such other staff and agencies as he may consider necessary for the review. The applicant is advised to review his plans in general or sketch form with the administrator prior to drafting for submittal.
- (b) The administrator shall examine the preliminary site plan with respect to: the requirements of this chapter in effect upon the date of submittal; the traffic and circulation patterns, internal and external and relation to major thoroughfares; utilities, drainage and community facilities, existing or proposed; surrounding development, existing or future; considerations of topography, floodplains, the natural environment, the preservation of trees or historic sites, provision for open space; and in general with the objective of ensuring a durable, harmonious, and appropriate use of the land in accord with the objectives of the comprehensive plan. The plans shall be returned to the applicant with relevant comments in accordance with Code of Virginia § 15.2-2259. The applicant is responsible for revising the site plan in a timely manner addressing all relevant comments to the satisfaction of the town manager, town engineer, or zoning administrator prior to approval. The town's comments or commitments on a preliminary site plan that has not achieved final approval shall be valid for a period of six months from the date that the comments are rendered for the town's first review comments, four months from the date comments are rendered for the town's second review comments, and two months from the date comments are rendered for the third and any subsequent review comments, unless extended for a period of 15 days due to extenuating circumstances by the administrator, not to exceed 30 days. Additionally, if the comments have not been addressed to the satisfaction of the town manager, town engineer, and zoning administrator and a final site plan approval rendered within two years from the date of site plan submission, the preliminary site plan shall be deemed to have been voluntarily withdrawn by the applicant. Any subsequent submission shall begin the review process anew and shall require compliance with the provisions of this chapter (and any other applicable laws and regulations) in effect at the time of subsequent submission.

Subpart B - LAND DEVELOPMENT REGULATIONS

Chapter 42 ZONING

- (c) If specified conditions or comments are met in revised plans within the time periods specified and the plans meet the requirements of a final site plan, the town manager shall approve the final site plan. The town manager may approve additional minor changes, if, in his opinion such changes do not substantially affect the original submittal and comments or conditions attached thereto.
- (d) In any case where the town manager or administrator is of the opinion that a proposed project subject to administrative site plan review is of such scale and impact that a decision on the site plan should be reached only after a review by the town council or the planning commission, he may refer the plan to the council or the commission or both of them for an advisory recommendation.
- (e) Nothing in this section shall be interpreted to permit a grant of a variance or exception to the regulations of this chapter or to abridge the procedures or requirements of the laws and ordinances governing the subdivision of land.
- (f) There shall be a charge for the examination and approval or disapproval of every site plan by the town. At the time of filing the preliminary site plan, the developer or his agent shall deposit with the town cash or checks payable to the treasurer in the amount as set forth herein or as established in the latest edition of the town development fee schedule, which may be amended from time to time by town council.
- (g) The town shall require as-built plans of public improvements, including geotechnical investigations. As-built plans may be required for other site improvements as deemed necessary by the town.

Sec. 42-627. Appeal from administrator's decision.

In any case where the applicant or other party who has a substantial interest in a proposed project is aggrieved by a decision of the administrator regarding a site plan, said applicant or party in interest may file a written notice of appeal with the town manager who shall place the matter on the agenda of the next regular meeting of the town council, provided said appeal is filed within ten working days of the decision. Upon hearing the appeal, the town council may reverse or affirm, wholly or partly, or may modify the decision of the administrator and may take such action as it believes appropriate.

- (a) A preliminary site plan, or plans, shall be filed with the town council through the administrator. The preliminary site plan shall comply with section 42-625 and the applicable written requirements of this chapter, and be accompanied by such other written or graphic material as may be necessary or desirable in aiding the decisions of the council. At its option, the town council may refer the application to the planning commission for an advisory recommendation.
- (b) Approval by the town council of a preliminary site plan for a conditional use permit shall be valid as specified in section 42-8. Following preliminary approval by the council, a final site plan in the form of a final plat shall be prepared and filed. The final plat may be approved by the administrator and shall comply with the specifications of the council and the requirements of this article and applicable laws, regulations and ordinances governing the subdivision of land. Permits shall be issued in accord with the approved and filed plat.

 - (3) Does not change the general character or content of an approved development plan or use,
 - (4) Has no appreciable effect on adjoining or surrounding property,
 - (5) Does not result in any substantial change of major external access points,
 - (6) Does not increase the approved number of dwelling units or height of buildings, and

Prior to approval of a building permit, there shall be executed, by the owner or developer, an agreement to construct such required physical improvements as are located within public rights-of-way or easements, or as are connected to any public facility in form and substance as approved by the town; and, the administrator may require a bond with surety or conditions acceptable to the town attorney in the amount of the estimated cost of the required physical improvements as determined by the departments, divisions or agencies responsible for such improvements. The aforesaid agreement, bond or conditions shall be provided for completion of all work covered thereby, maintenance thereof or for subsequent defects therein, within the time to be determined by the administrator, which time may be extended by the administrator upon written application by the owner or developer, signed by all parties (including sureties) to the original agreement. - (b) Upon satisfactory completion of all installation of the required improvements, the owner shall receive an approval from the administrator, upon application for such approval. Such approval will authorize the release of any bond which may have been furnished for the guarantee of satisfactory installation of such improvements, or parts thereof. Inspection is to be made within a reasonable time of the request, and the bond released as quickly as circumstances will permit.

Sec. 42-659. Averaging lot area and cluster subdivision.

- (a) *Averaging and clustering permitted.* Averaging of lot areas for detached single-family dwellings or clustering of lots and provision of public or private common open space in a subdivision is permitted in the A Agricultural and R-1A, R-1 and R-2 Residential Districts by the terms of this chapter. Average lot area in a subdivision and minimum area and dimensions for any lot are specified herein. Use of a design which incorporates averaging or which includes common open space shall be at the option of the owner, or his agent. These design alternatives are intended to encourage permanent reservation of open space and an efficient and improved use of the land to provide good building sites by taking advantage of topography and minimizing grading or destruction of natural vegetation. Plans shall not be approved where the clear purpose of the design is to subvert the purposes of these regulations by inclusion of excessively unbalanced distribution of land among lots or inclusion of open spaces which are inappropriately located or which will not contribute to the future amenity of the subdivision.
- (b) *Procedures; site plan required.* A preliminary site plan complying with the requirements of article XXI and the rules of the planning commission, adopted thereunder, shall accompany an application for averaging lot areas or a permitted cluster subdivision under this section. Procedures for review and decision shall be those specified for administrative site plan review under article XXI. In addition, the proposed development shall follow all applicable procedures, standards and requirements governing the subdivision of land.
- (c) *Minimum project area.* The minimum area of the subdivision shall be sufficient to accommodate at least five lots of minimum average area.
- (d) *Resubdivision.* No resubdivision or sale, by any means, shall be permitted in a subdivision approved under this section, which resubdivision or sale would in any way create a violation of this chapter.
- (e) *Floodplain and water areas.* No more than 30 percent of the required minimum area of any lot shall be located in a floodplain area and no part of the area of any lot shall be covered by any body of water, except that no more than 30 percent of the required minimum area of any lot may be covered by the waters of a lake, pond or canal planned and approved as a part of, and wholly, within the subdivision.
- (f) *Reduction of lot area, lot width and yard areas permitted.* Where proposed building site outlines are shown on an application for averaging lot area or cluster subdivision, the minimum lot area, lot width, lot depth and yard dimensions shall be as follows, provided that public water and sewer services are utilized in the R-1A, R-1, R-2 and R-3 Residential Districts and MU-1 and MU-2 Mixed Use Districts:

Subpart B - LAND DEVELOPMENT REGULATIONS

Chapter 42 ZONING

Zoning District	Minimum Average Lot Area (in sq. ft.)	Minimum Lot Area (in sq. ft.)	Minimum in Feet				
			Lot Width	Lot Depth	Front Yard	Side Yard	Rear Yard
A	21,780	18,500	100	175	35	20	40
R-1A	15,000	12,500	80	125	30	12	35
R-1	10,000	8,500	75	100	30	10	30

MU-2	10,000	8,500	75	100	30	10	30

Minimum lot size in the A Agricultural District is subject to health department approval where either public water or public sewers are not provided.

- (g) *Compatibility with developed properties.* An average lot area or cluster subdivision shall be designed to promote harmonious relationships with surrounding adjacent and nearby developed properties, and, to this end, may employ such design techniques as may be appropriate to a particular case, including coordination of yard dimensions, location of lots of various sizes, location of buildings with respect to project boundary lines, location of open spaces and maintenance of vegetation.
- (h) *Public facilities and open spaces.* Land or easements for public facilities or open space shall be dedicated, conveyed or granted in accordance with the requirements of this article and laws and ordinances governing the subdivision of land.
- (i) *Maintenance of common ownership properties.* Provisions shall be made for the designation, ownership and maintenance of common ownership properties in accordance with the requirements of article XXI.
- (j) *Preservation of landscape amenities.* The preservation of natural vegetation, and particularly mature trees, on steep slopes and in stream valleys, should be recognized as a primary design consideration in review and approval of an application under this section. Failure to exercise due care in maintenance of landscape amenities in accordance with approved plans shall be considered a violation of this chapter.

Sec. 42-660. Reference to Virginia Condominium Act.

- (a) Nothing in this chapter shall be interpreted to prohibit condominiums as such by reason of the form of ownership inherent therein. Neither shall any condominium be treated differently under any provision in this chapter which would permit a physically identical project or development under a different form of ownership.
- (b) All condominium projects or developments hereafter constructed shall comply with the provisions of this chapter, including the requirements for approval of site plans. Whenever an existing project or development is to be converted to condominium ownership involving certain land areas to be held as common elements, limited or otherwise, a site plan shall be filed showing the extent and ownership of such holdings. Nothing in this requirement shall be interpreted to abridge any rights said project or development may hold as a nonconforming use.
- (c) Any declaration of restrictions to be filed in connection with any project covered by the provisions of this chapter shall comply in all respects with the provisions of the Virginia Condominium Act not in direct conflict with the requirements of this chapter.
