C. Contract with Cardno for Facility Assessment Services.

D. Contract for with ABS Technology for Data Backup and Recovery.

Councilman Bishop made a motion to approve the consent agenda, seconded by Councilman Showalter. Council voted on the motion as follows: Bishop – Aye; Collins – Aye; Huppert – Aye; Sachs – Aye; Showalter – Aye; Stipes – Aye.

Council discussed an email from Councilwoman Sachs pertaining to the volume of Town monies supporting businesses outside of Christiansburg and Montgomery County through purchases on a monthly basis. Recognizing that the local business community pays taxes and brings revenue into the town, Ms. Sachs recommended that, in moving forward, the Town make every effort possible to support local businesses through its purchases, in a fiscally responsible manner. Councilman Stipes supported the recommendation and noted that, while Ms. Sachs comments may appear self-serving as a local business owner, he heard similar comments from the community during his latest election campaign. Councilmen Huppert and Showalter agreed, and noted they have received similar comments from the public. Town Manager Wingfield informed Council that the Town's internal policies were to support local businesses when possible, and he explained the Virginia procurement laws that dictate how the Town does its purchasing based on dollar amounts, noting that location was not a determining factor in selecting bids according to the law. When allowed per procurement laws, the Town does attempt to make purchases locally within the town and county, prior to patronizing businesses outside the community. Town Attorney Fontana supported Mr. Wingfield's comments by further explaining Virginia's procurement laws as they relate to government purchases, and she suggested the Town review past bid responses to get an idea of the number of local bids submitted. Mr. Wingfield offered to encourage future opportunities to purchase locally by making local businesses aware of procurement policies and protocols, and by offering instruction on ways to develop a competitive bid.

Mayor Barber commented that he would like the Town to consider developing a purchasing protocol for employee shirts that would provide a department-wide consistent standard.

## V. CITIZEN COMMENTS

A. Bob Leonard, Chairman of the Christiansburg Institute Board, addressed Council with a statement endorsed by CI Board and alumni. Mr. Leonard thanked the Town for its consideration of CI's community funding application and offered context and clarity to what he described as erroneous statements of Council during its work session on May 16, related to the handling of past Town contributions. Mr. Leonard stressed that information regarding the spending of Town contributions has always been providing in funding request applications for Council information, along with the respective financial statement, noting that the Town had been made aware that the first seven years of contributions supported operational costs of CI and the eighth year paid for a professional consultant to assist with long-term goals to revitalize the Edgar A. Long building. Mr. Leonard outlined CI's endeavor to build public programs each year that would increase the organization's visibility within the community, and noted that the success of these programs is dependent upon government and community contributions. If funded this year, Mr. Leonard pledged that a formal authority would be formed in partnership with the Town and other invested partners in the community. Council thanked Mr. Leonard for the information he provided.

## VI. INTRODUCTIONS AND PRESENTATIONS

A. Aprille Kelly to present regarding Relay for Life.

- C. Wayne Nelson, Engineering Director, to present regarding the Cambria Trail, a potential VDOT Smart Scale funded project.

Wayne Nelson presented Council with information on the proposed Cambria Trail, a potential VDOT Smart Scale funded project, and noted that the information provided was based on a report by Hurt & Proffitt, Inc., dated April 24, 2018. An aerial map was used to indicate the routes and connectors of the trail that is proposed to run along Cambria Street, Depot Street, and Roanoke Street. Mr. Nelson explained the proposed roadway improvements that would be necessary to accommodate the pedestrian trail and talked about the challenges faced in crossing/bypassing the Norfolk Southern railroad in Cambria that may require purchase of a right-of-way. The proposed Cambria/Depot Street routes had a combined estimated cost of \$4,750,466 (does not include Norfolk Southern right-of-way purchase), and Mr. Nelson noted that if approved by VDOT, Smart Scale funding could potentially provide 100% of funding for the project. Smart Scale funding preapplications are currently underway and due June 1, 2018, with final applications for up to four projects due by August 1, 2018 that include Parkway Drive extension to S. Franklin Street; N. Franklin Street/Depot Street intersection upgrade; N. Franklin Street/Peppers Ferry Road Connector Route, and the proposed Cambria Trail if approved for submission by Council. Council agreed to include the proposed Cambria Trail as the fourth project to be included in the Smart Scale funding application. Mr. Nelson welcomed and introduced Dr. Knocke and provided a brief resume of his background as a Virginia Tech engineering professor, and he talked about the valuable technical knowledge Dr. Knocke would bring to the New River Regional Water Authority Board as a member-at-large. Dr. Knocke thanked Mr. Nelson for the introduction, and Council for the appointment, and offered to answer any questions. Dr. Knocke shared that he was a forty-year professor at Virginia Tech with a technical emphasis on water and wastewater treatment, and he talked about the high quality of water in the New River Valley. Dr. Knocke said the Town was blessed to have a strong leadership staff, and that he was looking forward to working with the board on regional water matters. Council expressed its appreciation for Dr. Knocke's willingness to serve the community in this capacity.

**DESCRIPTION:** Updated draft budget document for FY 2019

**ITEM HISTORY:**

This draft was updated from the 4-3-2018 draft that the Council last met on in work session. The following changes were made to the last draft.

Added \$10000 for Christiansburg institute, \$2,500 for Blacksburg museum

Increased a few general fund operating costs based on some new information, updated estimated to receive revenue numbers based on more current information. Shifted expenditures on a number of capital projects from expenditure in FY 18 to expenditure in FY 19, rollovers

Added several newly funded projects and deleted one project that was not funded (Huckleberry Trailhead, hoping to get it funded later.)

We will need to make one change to this draft with the approval of council for \$71,400 to rollover a work truck for public works as we were just notified that it would not be delivered till after June 30, 2018 due to a fire in the Ford plant several months ago. The net effect of the rollover is no effect to the ending fund balance.
