V. INTRODUCTIONS AND PRESENTATIONS

A. Blacksburg – Christiansburg – Montgomery County Regional Tourism Office Interim Executive Director Chris Lawrence to present on the proposed amendment to the agreement

Chris Lawrence, Interim Executive Director, addressed Council and provided a brief history of the Tourism Office and spoke about the achievements of the office in 2024. Mr. Lawrence noted the importance of tourism in Montgomery County as well as the supporting Towns of Christiansburg and Blacksburg. He highlighted several successful grants and the office's ability to bring in extra funds beyond what the transient occupancy tax generates. Mr. Lawrence spoke about marketing for the Tourism Office and partnering with the Chamber of Commerce to provide local TV ads for buying local and product marketing brochures to highlight the region. He touched on several completed ARPA funded projects and explained the office had been working with the Virginia Passenger Rail Authority concerning marketing for the future rail system. Mr. Lawrence added that the Tourism office has been working with the Virginia Business magazine to help draw in business individuals from around the state.

Mr. Lawrence explained his job and focus as interim was to ensure the stability and accountability of the Tourism office and has listened and identified the concerns from Town Council. He expressed that online platforms have been updated focusing on Christiansburg sports assets to make sure they are up-to-date and relevant. Mr. Lawrence noted the Huckleberry Park had been added to the website after speaking with the Town's Parks and Recreation staff and defining their needs. He spoke about marketing future summer events in the Town and creating mobile tourism kiosks that would aid in connecting with visitors.

Mr. Lawrence spoke about moving forward into January 2025 with approvals on a joint agreement between the three localities. Mr. Lawrence touched on the details of the proposed agreement and how the contributions of each locality would change. He noted the initial term of the agreement is proposed to be five years with two automatic approvals, provided a locality chooses to proceed with their partnership. He added there was still a notification to "not proceed" stated in the agreement and a promise to appropriate funds for the Tourism office every year in the annual budget. Mr. Lawrence also included that if one locality does not move forward the other two localities can continue as agreed upon without interruption.

Councilman Wilson expressed he was more comfortable with a term of three years rather than five years. Mr. Wilson noted concern that if Council agreed to a five-year term, it could lock future Council into the agreement. Councilwoman Hicks expressed her disappointment in past relations with the Tourism office and noted her wish to see a return on the Town's investment. She added she would like to see more explanation on the Tourism office's marketing plan moving forward. Mrs. Hicks questioned where the additional funds the Town provided were and what the plan was for the money. She also asked where their office would be located in the next few years. Mr. Lawrence explained the funds that come into the Tourism office are spent on salaries for Tourism employees, marketing contracts, and tourism related expenses. Councilman Jenkins expressed his confidence in the Tourism office and leadership and added it was time the Town of Christiansburg joined the partnership again.

Mayor Barber recognized Finance Director Valerie Tweedie and her retirement on December 31, 2024. He thanked Mrs. Tweedie for her service to the Town. Mayor Barber also introduced upcoming Assistant Town Manager Scot Shippee who will begin employment December 16th.

Councilwoman Hicks expressed concern for the flex time revision to the handbook stating the last discussion concerning employee time was in a closed meeting and she felt it should be discussed publicly.

Councilwoman Hockett stated her concern for the flex time cap and expressed employees could be in a place where they could not use their flex time they accrued. She questioned if it would take incentive away when there could be other needs.

Human Resources Director Alicia Dials explained this flex time procedure had been in place since she had started with the Town. Mrs. Dials clarified there was no cap on the amount of flex time an employee can accrue and expressed concern that flex time could possibly be used in the place of vacation instead. Town Manager Wingfield explained that past Councilmembers felt exempt employees should expect to work extra overtime because of their jobs. He explained the flex time was adopted as a policy even though it was not added to the handbook. Mr. Wingfield stated that there were situations when certain departments have events after hours and need to work longer shifts but he would like to see that extra time worked be used as flex time the next week, not spread out over a long length of time. Mr. Wingfield clarified the final decision was at Council's discretion.

Unsafe Buildings, Walls, and Structures of Chapter 10 Buildings and Building Regulations of the Christiansburg Town Code

Daria Chicosky, Planner I explained the unsafe structure had been posted in March of 2024 and the departments' initial goal was to work with the property owner to have it

rehabilitated or demolished. Ms. Chicosky explained this had been brought before Council because the house had since collapsed upon itself. She clarified that the property owner had been given notice but unfortunately, they did not have the resources to rehabilitate the house.

Councilwoman Hicks questioned if the Town should offer other options for the property owner. Ms. Chicosky stated that the Town's hope was that the property owner could possibly do patchwork or upkeep for things such as gutters and windows, but the structural damage would have been more costly to fix. She added that the Town had left notices and reached out to the property owner with no answer and finally in court the property owner explained he had received the notices but did not have an intention to fix the issue. Ms. Chicosky explained the misdemeanor charge had been dismissed due to magistrate filing issues. Discussion of order abatement of an unsafe structure located at 995 Montgomery Street, N.E. (Tax Parcel 497 – ((A)) – 185C; Parcel ID 028826) consisting of approximately 0.268 total acres by demolition in accordance with Sec. 10-58. – Enforcement by council. of Article III. Unsafe Buildings, Walls, and Structures of Chapter 10 Buildings and Building Regulations of the Christiansburg Town Code

DESCRIPTION:

Town Council action is required to abate, remove, or obviate the nuisance of an unsafe structure located at 995 Montgomery Street N.E. if Sec.10-58 is utilized. Town staff has decided to take this approach for transparency.

The first notice of violation was issued on March 27, 2024. Since the initial notice, the property owner has received 4 additional notices requesting action to be taken regarding the property. Currently, the structure is caving in on itself and has severe structural damage.

The staff report in the December 10, 2024 Town Council packet incorrectly stated that the property owner was Mr. Glen Huff. The property had actually been sold to Jared Jones in September 2024. Town Manager Randy Wingfield, Building Official Jerry Heinline and Neighborhood Enhancements Coordinator Tim Solosky spoke to Mr. Huff to let him know the Town was sorry for the error and any confusion it may have caused. The current property owner has stated that they plan to demolish the residence and has applied for a demolition permit for the structure.

ITEM TITLE:

Audio quality in Town Council Chambers and Administrative Conference Room (Bowman and Hicks)

DESCRIPTION:

IT and PR have discussed the issue with inconsistent sound quality. While neither department was hired for sound expertise, both departments typically work together to try and troubleshoot audio/visual issues. Please see the below information regarding how we have worked to address issues in 2024:

January 29, 2024 – Town Staff reached out to Midway Production Services and received immediate response

February 1, 2024 – Midway Production Services arrived on site and diagnosed/fixed multiple issues including a quote for cable replacement

February 26, 2024 – Cable arrived and was replaced the following day

February 27, 2024 – Midway Production Services attended the Town Council meeting to assess concerns

February 28, 2024 – We received the following synopsis of issues:

1. The new cable run we installed yesterday did fix the noise issue in the cable between the mixer (located in the closet) and streaming computer (located in the server room.) That said, there was a different source of noise appearing in the right side of the live stream which was caused by VMix not remembering its settings and routing the very-noisy onboard audio from the cameras to the right side of the livestream... that issue *should* now be fixed since we saved a new preset after the meeting last night, and we will verify that ahead of the next meeting. Be sure to select preset #5 for future meetings.

2. During my initial visit, we ran into an issue where there was no audio coming into VMix at all and eventually discovered that rebooting the streaming computer resolved the problem. This is what caused the lack of audio during last night's stream and was ultimately fixed by physically rebooting the computer. When we tested the stream immediately after installing the cable yesterday, everything worked fine which means this is an intermittent problem.

There is no obvious cause, but my best guess is that it's a bug or some malfunction with the Presonus Audiobox audio interface, which is the blue box on top of the server rack that takes audio from the mixer and delivers it to the streaming computer. I've experienced a lot of puzzling issues with those devices before and there are reports of similar issues with that unit and VMix online. The only connecting factor I can think of between both incidents is that we had physically handled the unit that day. It's possible it's as simple as a bad USB cable that must be in just the right position to work reliably, but since we're short on definitive answers here, it's probably best to replace it with a Focusrite Scarlett 2i2 Gen4 audio interface, which are known to be much more reliable and is what should have been installed to begin with. If you want to go this route, we can order one for \$189.00 or they're easily

available online if you want to procure yourself. Installation is direct drop-in and doesn't require any changes to the system.

3. Since we spent most of last night battling the Vmix issue and trying to get the stream operational, it was only during the last few minutes of the meeting that I was able to work on the actual audio mix, but most of the issues with low mic volume were resolved, especially Johanna Hicks' mic. I do suspect that her microphone has lower output than the rest, and I intend to swap it for a known good mic ahead of the next meeting to try to determine why. In any case, it's now at an acceptable level. I'm confident that I can get the few lingering volume issues sorted out with another visit, and we'll begin a bit earlier just to verify functionality prior to the room filling up with people.

March 12, 2024 – Town Staff asked Midway Production Services to attend another Town Council meeting

April 10, 2024 – Midway Production Services diagnosed a potential issue, and it was corrected by staff.

April 23, 2024 - Midway Production Services informed us of potential GSM cellular interference (Someone has their cell phone too close to a piece of audio system, potential a microphone, mixer, or audio interface).

Following the recommendations and changes from Midway Production, Town staff held numerous internal conversations and troubleshooting efforts to continue addressing audio needs (including the addition of a second wireless microphone).

Additionally, Town Staff have also worked to address the sound issues within the Administrative Conference Room, including the addition of new equipment in October (the Meeting Owl Pro) to help improve audio.

December 10, 2024 – Town Manager Wingfield noted that staff had looked into issues with the audio system in Council Chambers and felt it should be brought to Council's attention since the budget amendment was currently being discussed. Public Relations Director Christina Bolt explained that the master control system had several issues and clarified there were too many issues to fix at this point and the system should be replaced. Mr. Wingfield explained the Town had received a quote for \$15,000 for the replacement of the audio system but Mr. Wingfield suggested \$20,000 for any additional requirements for installation.

Town Council approved Budget Amendment #2a with the inclusion of \$20,000 for audio installation in Town Council Chambers.
