

Christiansburg Aquatic Center
Advisory Board Meeting
January 5, 2011

In attendance: Terry Caldwell, Jeremy Williams, Jim Vanhoozier, Shirley Hallock, Karen Drake, Steve Simmons, Shawn Worthley and Lauren Woodcock

The meeting was called to order by Jeremy Williams.

Steve made motion to approve minutes from previous meeting, Shirley second motion and minutes were approved.

Angie Gunther, Bernadine Banning and Jackie Spaulding of the Morning Fit class were in attendance to address the attached letter they have sent to all Advisory Board Members concerning the Inclement Weather Policy. Terry led discussion on how this policy came into effect with input from interim town manager Barry Helms it was decided to implement the same policy as used at the Rec. Center. The class members stated that there seemed to be some confusion on the policy and the instructor was not sure of the policy. There was much discussion on this policy along with discussion concerning the on line registration for classes and such. With this discussion it came out that once you are in the system there are fewer steps in the registration which should eliminate this confusion. The Advisory Board decided to leave the policy as it is for now, so as to be universal within the town and to continue to monitor the situation and if the need arises to make recommendations at that time.

Under old business discussion was held on the computer policy of the town concerning web access and Terry reported that everything has been working fine. As they find a need to visit various web sites for research or information those sites are being made available for use.

With no further business the meeting was adjourned.

Next meeting is scheduled for February 2, 2011

Jeremy Williams, Chair
