

Agreement in Lieu of Erosion and Sediment Control Plan

In lieu of submission of an erosion and sediment control plan for the construction of this single family dwelling, I agree to comply with any reasonable requirement determined necessary by the Town of Christiansburg, Virginia. Such requirements shall be based on the conservation standards contained in the Town of Christiansburg Erosion and Sediment Control Ordinance, and shall represent the minimum practices necessary to provide adequate control of erosion and sedimentation on or resulting from this project.

As a minimum, all denuded areas on the lot shall be fine graded, seeded and mulched prior to issuance of the Certificate of Occupancy. During construction, the road/adjacent properties will be protected from erosion or sediment transportation, a construction entrance will be maintained on the site, and to the extent they apply to the particular construction site, the proposed land disturbing activity will comply with the minimum standards of the Virginia Erosion and Sediment Control Regulations.

I understand that failure to comply with such requirements may result in enforcement actions. Enforcement actions and civil penalties shall be in accordance with the Town of Christiansburg Code, Chapter 10, Article 1, Erosion and Sediment Control. The Town of Christiansburg may also bring a civil action for such violations or failure, and take all enforcement actions authorized by the Erosion and Sediment Control statutes and regulations.
