

Out of caution for public health the town of Christiansburg along with the town of Blacksburg and Montgomery County the **CLOSING** of the Recreation Centers, Aquatic Centers, and Harkrader Sports Complex **will be extended through April 30th**.

During this time all programs, classes, activities and events will be cancelled. If you are a registered and paid participant in these programs, classes, activities, and events during this timeframe you will receive a refund credit to your recreation active net account.

If you have purchased a membership it will be extended the amount of time that the facility is closed.

Youth and Adult Athletic programs are on hold and the seasons will be delayed at the current time. Once we are allowed to move forward with the seasons we will notify participants through the website or email. In the youth division we will provide dates for late registration and placement practices in each division at that time.

During this time all rentals of Town of Christiansburg Facilities including athletic fields and shelters are cancelled. If you are a paid rental during this timeframe you will receive a refund or credit to your recreation active net account.

All other Outdoor Parks and trails are currently open at this time. We encourage residents to recreate at their own risk and to practice social distancing and good hygiene.

Our goal is to keep parks, playgrounds, trails and other spaces accessible as long as it is safe to do so.

This extended closure also complies with Gov. Ralph Northam's statewide closure of non-essential businesses and recreation facilities.

The Montgomery County Public Health Task Force will provide updates as they become available via social media and online at

www.montva.com/coronavirus.
