COMMUNITY CORNER

Town Staff Receive Awards

Christiansburg Public Works' Waste Water Treatment Facility (WWTF) exemplified an outstanding commitment to safety and became the first public sector facility in the state to achieve the Safety and Health Achievement Recognition Program's (SHARP) Worksite status from Virginia Occupational Safety and Health (VOSH). The Public Works Operations Center is soon to follow as it is already in Pre-SHARP standing. SHARP encourages small, high-hazard employers to develop, implement and improve the effectiveness of their workplace safety and health management system and recognizes those who operate an exemplary system. SHARP Worksite status is given only after rounds of thorough site and safety record inspections are completed. Being the first in Virginia, the SHARP Worksite status is an achievement that sets Christiansburg's WWTF as a model for worksite safety and health.

The Town was also named Locality of the Year by the VDOT Salem District. Each year, the district recognizes one of their local government partners for demonstrating hard work, effort and commitment to delivering transportation programs for their constituents. The award is scored by taking into consideration the locality's communication and participation in quarterly conference calls, training opportunities and workshops; proficiency with project applications, agreements, plan submittals and documentation; and performance related to the number of projects completed and project stages completed on schedule. The Town's Engineering Department continues to work extremely hard on applying for grants and administering valuable projects throughout our town.

CAPITAL PROJECT: DEPOT PARK TRAIL EXTENSION

On July 28, contractors installed a pedestrian bridge (seen in the cover image above) over Towne Branch at the Aquatic Center. The bridge is part of the Depot Park Trail Extension Project, which is still under construction and is expected to be complete in September. The paved trail extension will connect Mill Lane at the Aquatic Center to the existing loop trail at Depot Park. The project is funded under the Transportation Alternatives Grant by VDOT, which provides 80 percent of project funds with a 20 percent match from the Town. At press time, the bridge was not open yet as crews were still finalizing installation. However, you can now access the extended trail, which was recently paved, from the existing Depot Park loop trail; please avoid any areas that are blocked off for ongoing construction.

RECYCLE THIN, SINGLE-USE PLASTICS FOR A COMMUNITY BENCH

In conjunction with Trex, an eco-friendly decking company, the Farmers Market is collecting single-use, thin plastics to recycle into an earth-friendly composite decking and railing material. A collection area will be at the Farmers Market on Hickok Street on Thursdays and will be at the Rec Center on other days. Items that can be recycled include: produce and bread bags, grocery bags, cereal box liners and ice bags, as well as resealable bags, and case wraps from bulk items like bottled water. You can also recycle newspaper sleeves, dry cleaning bags, plastic shopping bags and bubble wrap! If the community can collect more than

500 pounds of plastic refuse in a six-month span (about 40,500 plastic bags), the company will donate a high-performance composite bench to Christiansburg!
