

ASBESTOS AND COMPLIANCE CERTIFICATION FORM

This form shall be completed by all applicants applying for a building permit to renovate or demolish a building or structure. The owner or an authorized agent of the owner must sign this form and one of the applicable boxes must be checked.

ADDRESS WHERE WORK WILL BE PERFORMED

As the owner or the owner's agent of the above building, I certify that:

- Buildings built after January 1, 1985:** The building permit for the original construction of the building listed above was issued after January 1, 1985; therefore, the building is not subject to asbestos certification requirements.
- The above building is a single family dwelling, or is a residential building containing four or fewer dwelling units, which will not be used either as a commercial building or as a public development project, and is, therefore, exempt from asbestos inspection requirements.
- The combined amount of regulated asbestos-containing material involved in the renovation or demolition is less than 260 linear feet on pipes, or less than 160 square feet on other facility components, or less than 35 cubic feet of facility components where the length or area could not be measured previously, and is, therefore, exempt from asbestos inspection requirements.
- The affected portions of the above building have been inspected for the presence of asbestos by an individual licensed to perform such inspections pursuant to Virginia Uniform Statewide Building Code and that no asbestos-containing materials were found.
- The affected portions of the above building have been inspected for the presence of asbestos by an individual licensed to perform such inspections pursuant to Virginia Uniform Statewide Building Code and that the appropriate response actions will be taken with the requirements of NESHAPS and the asbestos worker requirements established by OSHA.
- The building permit application is only for repair or replacement of roofing, floor covering, or siding materials. The materials to be repaired or replaced are assumed to contain friable asbestos and the appropriate response actions will be accomplished by a licensed asbestos contractor or a licensed asbestos roofing, flooring, siding contractor

(THIS OPTION IS NOT PERMITTED FOR SCHOOLS PER THE VIRGINIA UNIFORM STATEWIDE BUILDING CODE).

In addition to the above, I also certify that :

- Any asbestos abatement area will not be occupied until all response actions have been completed and final levels for re-occupancy of the abatement shall be 0.01 or fewer asbestos fibers per cubic centimeter if determined by Phase Contrast Microscopy analysis (PCM) or 70 or fewer per square millimeter if DETERMINED BY Transmission Electron Microscopy analysis (TEM).

Signature of Owner or Agent: _____ Date: _____

Caution: This form only satisfies the requirements of the VUSBC for permit issuance; notification of applicable state agencies may be required. For additional information contact the Department of Labor and Industry
